Game Info

By: **Rare**

Type: **3D Shoot 'em up**

Release: **19th May**

► Meet Joanna, codename Perfect Dark. She's the star of Rare's gob smacking Bond beater.

Perfect Dark Big Game

Perfect Dark

Say bye to Bond,
'cos Rare's biggest
shoot 'em up is
here. Perfect
Dark has arrived.

The best blaster yet

Turok was tops, Goldeneye was great, but it's time for the N64's most mind blowing shoot 'em up. In Perfect Dark, you control a fearless secret agent called Joanna Dark, who's on a mission to bust the sinister dataDyne corporation.

With a mouth watering range of vicious weapons, red hot missions and the best multiplayer arenas you'll ever see, Perfect Dark's a game you'll never wanna stop playing. But you'll need to be quick on the trigger if you wanna stay alive. Prepare to be amazed!

▲ With a mountain of guns to blast away with, you won't want to put this crackin' adventure down.
◀ Meet Joanna Dark, the sharpest killer in the biz and the star of the biggest shoot 'em up ever made.

Nintendo

Incredible movies

Perfect Dark stands head and shoulders above Goldeneye, thanks to the movie sequences used to link levels.

Before Joanna is dropped onto the roof of dataDyne's HQ, you're treated to a movie that pushes the N64 to the max. And you won't believe the speech, either. It's so clear you'll think you're watching a real film!

► The amazing movie action begins as you swoop across the rooftops in Carrington's ultra hi tech ship.

▲ Just check out every detail of the gorgeous graphics. As Carrington's ship swoops over the city at lightning speed, you'll see its gears and flaps moving realistically.

► As the ship hovers above the dataDyne building, Carrington gives you the lowdown on your objectives.
► It's time to abseil onto the roof and let the action commence. Don't lose your nerve 'cos your mammoth journey's only just begun. Good luck, Joanna.

Weapon control

If you played Goldeneye 'til your fingers bled, you're gonna get the hang of Perfect Dark in no time at all 'cos the controls are very similar.

But now it's much quicker to choose a weapon when you're under pressure. You just hold down **A** and use the 3D Stick to get the gun you want. And unlike in Goldeneye, each gun has a secondary function. Here's how it works...

▲ Now you don't have to waste time cycling through the weapons. Just hold down **A** to bring up an inventory menu.

▲ You then use the 3D Stick to select the weapon you want. Now release **A** and you're straight back into the action.

▲ To give your chosen weapon more kick, hold **B** to soup it up. Hit **B** again to confirm, then just pull the trigger to blow 'em away with your gun's secondary function.

Loads of levels

Perfect Dark has 17 action packed levels, and each one's teeming with vicious enemies and tough challenges. They take Joanna from the seedy streets of futuristic Seattle to beautiful villas by the sea.

Like Goldeneye, Perfect Dark has several difficulty options to choose from, each giving players a totally new challenge. When you play the same level at a different difficulty setting, you'll often find yourself starting your mission in a much more dangerous place.

▲ Joanna's missions will take you to some tough futuristic locations. Take out that coward before he gets away.

▲ Look out for the ever sinister Cassandra de Vries and her band of gallant giriies. They are real meannies.

▲ Joanna goes through several costume changes as the game progresses. Doesn't she look cool?

▲ Deep under the ocean, goons swarm at you from all over the place. Pull out your Laptop gun and give 'em a pasting.

Your first mission

The game begins at the top of dataDyne's HQ. Your job is to make your way to the labs in the basement and find Doctor Carroll. The building is heavily guarded, so you'll need your wits about you.

First you've got to disable the security system, then find Cassandra and steal her keycode necklace so you can download dataDyne's files. Better keep 'em peeled for the guards who roam the dataDyne corridors!

1 ▲ Joanna's first task is to disable the security system with an ECM mine.

2 ▲ Crack troops guard every room and corridor. Better keep your guns loaded.

3 ▲ Use your gun sight to target baddies from a distance for a safe way to kill.

4 ▲ Find Cassandra and nick her necklace before she screams the place down.

Hit 'em where it hurts

Joanna's huge range of blasters is guaranteed to make your jaw drop. But even if you don't have a gun, you can still waste your enemies with karate punches, or even nick their weapons off 'em!

Duck for cover, 'cos we're gonna check out the game's best shooters...

Falcon 2

A basic gun for the first levels. Can only fire single shots.
What's its second function? You can creep up on an enemy and crack them over the head.

SuperDragon

An assault rifle that's great for mowing down packs of troops.
What's its second function? It's also a Grenade Launcher that pumps high explosives.

Mauler

Very efficient, cos it's got 20 rounds in each magazine.
What's its second function? Charge it up with \square till it's red. Let go for a wave of bullets.

CMP 150

Great for some serious lead pumpin' gung ho action.
What's its second function? The gun's lock on sight means you'll hit target every time.

Avenger

If attacked from all sides, this weapon should save your skin.
What's its second function? A Threat Locator. Shows you where the enemy weapons are.

Devastator

Pumps out grenades to blow away any enemy troops.
What's its second function? Lets grenades stick to walls so they fall as enemies run past!

Maion SMG

This strange looking gun has rapid, ammu pumpin' action.
What's its second function? Load it up with High Impact Shells for mega damage.

Laptop Gun

Rips your enemies apart with a wicked burst of fire.
What's its second function? Stick a gun turret on the wall to shoot enemies as they pass.

Cool new gadgets

Being a sharp shooter isn't enough to crack Perfect Dark... you'll have to master a whole new range of gadgets, too.

The PD gadgets are loads more exciting than the ones you used in GoldenEye, adding a completely new dimension to the gameplay.

If you use a clever gadget at the right time you'll often get better results than storming in, guns blazing. So think before you shoot!

EyeSpy

Using remote control, you can fly this tiny roving robot camera deep into enemy territory. Not only that, but this wicked piece of kit will allow you to take pictures without being spotted.

FarSight XR-20

This awesome gun can see right through walls and detect the heat of any dataDyne baddies who are patrolling the area. Once spotted, you can pump 'em full of white hot lead in seconds.

IR Scanner

Some clever enemies use special cloaking devices to make themselves invisible. Once you've powered up this gadget, it can detect body heat, letting you spot any dataDyne guards.

Use your brain

Like in Goldeneye, mindless shooting will only draw unwanted attention. You have to use stealth to stay alive.

Much of the game requires you to creep around, taking out guards with as little fuss as possible.

You can even change your surroundings to give yourself a better chance of survival. If you switch off the lights you'll be able to prowl past guards in the dark, without them laying eyes on you.

▲ Don't go around with all guns blazing or the guards will hear you. Use your stealth to creep round and kill 'em quietly.

▲ To stay alive, turn out the lights and you'll be able to sneak past the guards. They won't even know you were there.

▲ If you then switch to your night sight, the dataDyne guards won't stand a chance when your gun goes off.

Carrington's Villa

One of the coolest levels takes place in Daniel Carrington's beach home. The luxury villa's been overrun by those dataDyne goons, and you've gotta try to get in.

Sharp shootin' snipers guard every corner and cliff top, so your sneaky skills will have to be spot on as you make your way to the villa's entrance. You'll have to be clever to get past 'em!

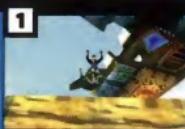

Once inside, you'll have to stalk through the corridors. There's no point going hell for leather through the level, 'cos the baddies are sure to pump you full of lead if they find you. If you wanna succeed, you're gonna have to creep around and stay undetected.

▲ As you sneak towards the villa entrance, get ready to take out the guards who are on the look out.

▲ Where's the guard gone? All it took was a quick blast from your gun and he's fallen to his doom. Gotcha!

▲ Soaring in from the horizon, the daring Joanna leaps from Carrington's ship onto the cliff tops below.

▲ You'll need eyes in the back of your head in the dark corridors. Make sure you kill troops before they clock you.

Be a sniper

At the start of the Carrington Villa mission, you'll have to master the art of shooting with the deadly Sniper Rifle.

High up on the cliffs, you've gotta crouch behind a wall and pick off the soldiers who are about to kill an innocent civilian.

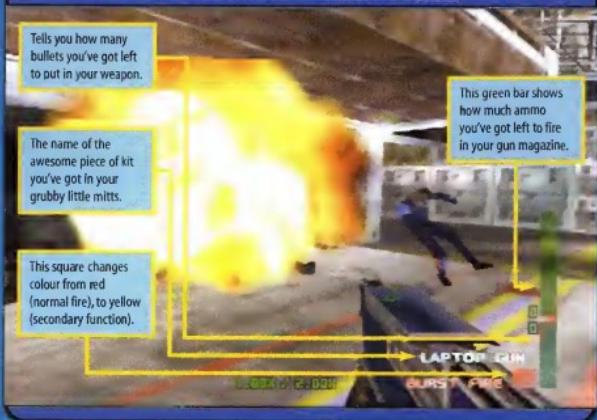

Just hold **B** to bring up your sniper sight. Move it towards 'em and pull the trigger. Be quick though, 'cos the dataDyne henchmen will return fire if you don't take 'em out first.

▲ Down on the boat deck that juts out into the water, two guards are going to shoot a hostage.

What you'll see

With all the action going on around you, you won't have much time to stop and think. So to help you out, here's a quick guide to the info you'll see on the screen...

▲ Press **B** to bring up your sight and pick out which helpless baddie to kill first. Yes, he'll do.

▲ Once you've got 'em in your sights, pull the trigger and watch 'em collapse in a heap.

You've got the power

Your power gauge only appears when you get hit by an enemy. However, it looks a lot different to James Bond's watch, seen in Goldeneye.

Joanna's health bar appears at the top of the screen, showing her health, body armour and energy shield levels. Let's take a closer look at each one...

Jab and hook

As well as taking out enemies with your superb range of kit, you'll also have to use hand to hand combat.

If you use your hands to attack an enemy head on, it can take three or four hits before they fall. If you catch 'em from behind, a single strike to the back of the head is enough. You'll need to be spot on though, 'cos every time she's punched, Joanna gets dizzy. The screen blurs, making it harder for you to hit 'em.

▲ If you get winded by a guard's punch, you'll start to go dizzy...

▲ ...making it very difficult to line up a decent shot with your weapon.

◀ Punching baddies to the floor takes ages if you hit 'em from in front.

▼ Stand behind them instead and they'll fall to the floor with one hit. Eat yer heart out, Mike Tyson!

Improved enemy intelligence

One excellent feature of Perfect Dark is the advanced intelligence of the baddies. They're mega clever.

Rather than waiting for you to shoot 'em, enemies will run for cover and return a volley of shots when they think the coast is clear.

Enemies will often roll out of your line of fire, but they're also able to lie perfectly still on the ground, waiting for you in dark corners and hidden areas.

And one hilarious new addition is that some bad guys surrender when the going gets too tough for em. What a bunch of wimps!

◀ Other sneaky troops will lie in wait with their sniper rifles poised to shoot.

▲ The intelligence of the baddies is amazing. Some guards will dive out of the way of your bullets.

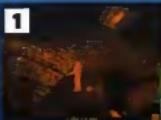

◀ Some guards'll even wave the white flag and surrender when the action gets up. What a big girl's blouse!

Inside G5

Your next stop is G5, an unofficial, military division of DataDyne. It also has a number of secrets to unlock.

One of the trickiest parts is spotting the invisible troops. As they use cloaking devices, they're dead hard to spot 'til you strap on the IR Scanner. Then the bad guys will show up in red.

◀ The cloaked guard up ahead's got his back turned. Time to load up your IR Scanner and let rip with ammo.

▼ Now you can spot the cowards in the darkness. Spray 'em with lead and they'll have no chance.

Area 51

This desert landscape is home to a top secret army base, the infamous Area 51. Before entering, you'll be shown a video from Daniel Carrington. Even though the picture's fuzzy, you'll still be able to work out what's going on inside the base.

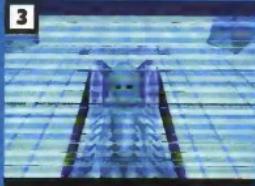

One of the video's weirdest moments shows an operating theatre where a strange alien body is being examined by a group of sinister doctors. Sounds like a job for Joanna! Better sneak inside the secret base and find out what dataDyne has been up to.

▲ Before being dropped into Area 51, you'll be shown a top secret video by Carrington.

▲ You can just about make out that something strange is being operated on inside the base.

▲ Whoah, check out that alien! Dodgy dataDyne is really up to some nasty tricks.

▲ It all looks a bit strange. Joanna had better find out what's going on in Area 51 for herself.

Targeting baddies

Pressing the **B** button will bring up Joanna's gun sight, but it's much more useful than Bond's outdated version.

Your gun target is green, but if it suddenly turns red, it means that an enemy is standing directly in your sights, making it easier to spot baddies in the distance. Now you're ready to let 'em have it.

Some guns allow you to lock on to several targets at once. Just drag the target cursor over the enemies you want to kill, and press **B**.

Even if you leave the room, your gun will still be locked on the enemies you targeted. So just pop your gun around the door and let rip. Cool, eh?

▲ As you sneak through the levels, your gun's target will be green...

▲ ...but if it changes to red, you'll know you've got 'em in your sights.

▲ Some weapons will let you target loads at once. Drag the cursor over the bad guys and they're yours.

▲ Even if you leave the room, the targets will still be there on your return. So get blastin', Joanna.

Hop on your bike

If you liked taking control of the tanks in Goldeneye, you'll love what's in store for you in Perfect Dark.

This time, there's a wicked hover bike to use. As well as controlling the bike's movement, you can also pull out your guns and shoot at enemies whilst you ride.

▲ Tucked away outside the secret base is a hover bike.

▲ Jump aboard and you can blast baddies as you ride past.

▲ You'll even be able to pull out two guns at once and ride your bike at the same time. Just how does she do that? Amazing.

Pelagic 2

Your next mission sees you sneaking around inside the deep sea research vessel, Pelagic 2. Now the heat is really on!

The dataDyne villains have taken over the ship and started mysterious diving operations, deep under the surface of the Pacific Ocean.

There isn't much room to hide from your enemies in the narrow corridors, so using the Laptop Gun is a must. Just plant it on a wall and any baddies who walk in front of its sensor will be taken out in a hail of bullets.

▲ Deep under the waves, dataDyne forces are up to some strange things. They won't give up without a fight.

▲ Baddies are easy pickings with the smart Laptop Gun. Thanks to its rapid firing action, he doesn't stand a chance!

▲ If armed gunmen are proving difficult to kill, try throwing the gun against the wall. It should stick fast.

▲ Now all Joanna has to do is to sit back and wait for 'em to walk in front of its sensor. Say goodbye, punk!

Deep Sea

After completing the tough missions in Pelagic 2, your next job is to negotiate some more underwater perils.

Once again, dataDyne soldiers are on the prowl and are more than prepared to pull out every trick in the book to take you down.

Deep inside the ship, Joanna must make her way through the maze of corridors to reactivate the giant teleporters inside. Again, you'll need to master the IR Scanner if you wanna get out of the level alive.

Packs of cloaked guards patrol every corner, so you'll need to hunt 'em down and destroy them quickly to be in a chance.

There's even an alien mega weapon hidden deep inside the level which you must find and disarm before you can escape the mysterious deep water vessel. Better get your shootin' boots on, Joanna. You'll need 'em!

► Down in the dark tunnels under the ocean, you'll come face to face with loadsa hot shot guards.

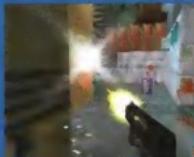

▲ Enemy goons love to use their cloaking powers, so your IR Scanner should come in very useful.

▲ The guard's got his back turned, so pump his guts full of lead before he sees you and pegs it out of there.

▲ Head shots are important on this level. Hit their arms or legs and they'll still be able to return fire.

◀ To get inside G5, kill the troops on guard outside.

▼ Dying troops'll leave pools of blood on the ground.

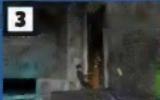

Over the edge

Joanna's able to walk off the edge of platforms and jump to lower levels. This can come in pretty handy!

It means you can drop from high ledges to land right behind an enemy and club 'em over the head with the butt of your gun. Or give 'em a pasting with a shower of bullets.

It also adds a new dimension to the excellent multiplayer battles, particularly in the Temple where you can jump through the hole in the central room.

But don't worry. It's much easier to stop yourself falling off platforms than in the Turok games... thank goodness!

▲ Look down there! A guard's shootin' at you. Get a shifty on and you'll catch him.

▲ In the temple arena, you can drop through the hole in the main room to get baddies.

▲ Just walk towards the ledge and you'll be able to drop down with no trouble.

▲ You'll now be able to battle it out with the troops. Good shootin', Joanna.

Gorefest!

Although Perfect Dark is nowhere near as bloodthirsty as Turok, it has loads more blood than Bond's adventure.

Jets of blood will shoot from enemies when you target them correctly, rather than their clothes getting stained red like they did in Goldeneye. One cool feature is that enemies who try to escape your wrath will leave a trail of blood on the ground! You can follow this and finish 'em off.

▲ If a baddie manages to get away, they'll leave a trail of blood.

▲ Hit 'em with rounds of ammo and watch the blood spurt.

Magical multiplayer

Like Goldeneye, Perfect Dark is an awesome single player quest. But it's the multiplayer that'll keep you coming back for more.

Perfect Dark features loads of new multiplayer options, along with all the basic features that made Goldeneye such a classic.

There are tons of new arenas to fight in, along with levels that'll be familiar to Goldeneye fans. Best of all, you can call computer controlled characters into the arena.

Some Goldeneye favourites, like the Complex arena, make a welcome return.

One new option allows you to battle as a single player against enemy Sims for an awesome frag fest.

There are tons of top new arenas to battle in, and each one's full of devious places to hide.

Like in Goldeneye, stealth is the name of the game. Take out enemies from a safe distance, and don't let them set off the intruder alarms.

The enemies in Perfect Dark are much more intelligent. Some duck for cover when you open fire; others will surrender.

Dish out orders

Perfect Dark multiplayer allows players to use Sims – Intelligent, toolled up fighters who can be controlled by the N64... or you! The Sims can be used as enemies if you fancy a single player blast in a multiplayer arena, or you can team up with mates to hunt 'em down.

But the best bit is that you can have Sims on your own team. You can order them to track down your mates and waste 'em on your behalf. To give an order, just hold **A** to bring up the menu. Then double tap the **Z** trigger and a list of orders will appear. Here's how it works...

Follow

Makes a Sim stick to your heels. Great if you know where your enemies are and you want to attack from two sides.

Attack

Select this option and your Sim will head towards your enemy. Now he won't stop until he wins... or dies!

Protect

If you're on your last legs, use your Sim as a protective shield. He'll give you extra protection from the bad guys.

Defend

If your enemies are attacking, use the Defend option to keep your Sim by your side and hit 'em with a hail of bullets.

Start by pressing A

The action's about to begin in the sprawling Villa arena. There are five Sim orders to choose from, so press **A** and tap **Z** to get a menu on the screen.

Hold

Choose Hold and your Sim will guard a certain position in the arena and attack anyone who dares to come too close.

New multiplayer games

If you thought Goldeneye's multiplayer games couldn't be beaten, think again. The options in Perfect Dark are amazing!

PD features some awesome new games that'll have you aching for just one more go. The normal kill or be killed deathmatches are there, of course. But there are a couple of new options to try with your mates.

Co-operative

When you select this option, you and a mate are dropped off in a tense, one player mission. Now it's up to you to help each other out and complete the mission, blasting away at any vicious soldiers who dare to cross your path.

Counter operative

A two player game with a difference. Player one takes on the role of Joanna in a single player mission, while the second warrior takes the position of various villains along her route! Will your mate be able to waste you?

▲ Guards patrol every corner. Blast 'em in the chest before they get their guns out!

Knock 'em out

To add to the heart pumpin' excitement of multiplayer battles, there's a cool new weapon you can lay your hands on.

Pick up the Drug Gun and you'll be able to shoot darts filled with chemicals. Get hit by one and weird things'll start to happen. Not only will you be slow to draw your gun, but your screen'll blur, making it impossible to aim.

▲ Make sure you look out for the Drug Gun as you battle it out for supremacy.

▲ Player three's been drugged. Their screen blurs, making it hard to aim. Doh!

Deathmatch heaven

If you've never played a deathmatch, the best way to learn all the tactics you'll need is to take a trip to the Combat Simulator.

In the Challenge mode, you'll come face to face with Sims who only have one aim in mind... to send you home in a bodybag.

The first challenge only gives you basic weapons to kill 'em with but, in later stages, the Sim Intelligence really hots up. Pretty soon you'll be able to let rip with Rocket Launchers, Assault Rifles and Mines.

◀ In the Challenge mode, you'll have the chance to fight computer controlled Sims as a single player.
▼ One option even highlights the ammo crates, making them easier to find if you're running low on bullets.

◀ If you're quick on the draw, pull out two guns for double the damage.
▼ Sims will dive outta the way of your shots. Don't let 'em escape.

▲ Sneak up behind a guard and hit 'em with your pistol butt. If you do it right, your enemy will fall down dead, instantly. If you face 'em head on, it can take three hits.

▲ In some levels, you'll have to race against the clock to finish your mission objectives. Make sure your guns are packed with ammo and you'll have no bother blowing 'em away.

Blast from the past

The Goldeneye arenas were classics and, if you want more of the same, you'll be pleased to know that the best are making a welcome return.

You can relive your moments of glory by shooting your pals in the giant Temple rooms, or having a stake out in the tight corridors of the Complex.

▲ Hide under the stairs and they won't see you. Now hit 'em from the shadows.

▲ Wait for your opponent to run into the room below and spray 'em with bullets.

▲ The Temple rooms are great for battles. The fact that you can drop down the hole in the central room adds a whole new dimension to the ace gun fights.

King of the Hill

Another ace deathmatch option in Perfect Dark will see you defending your base, as you blast away at attackers on all sides.

In King of the Hill, your mission is to find the hill, shown as a green box on your radar screen. Once you've found it, the fun really begins 'cos you've gotta try to stop your rivals from capturing your base.

To help you out, you can activate the awesome Threat Detector. Not only will you be able to spot any intruders heading your way, but the Detector'll show you which weapons are nearby. Then you can grab 'em.

Let's get down to the battle arena and check out the blastin' action...

▲ At the start of the fight, it's a battle to the death to find the hill before the other team manage to locate it.

▲ If an opponent runs into your line of fire, make 'em eat lead before they manage to leg it and get the hill.

▲ You'll even get the chance to guard the hill on your own. Use the Threat Detector to find any handy weapons.

▲ You've got the hill. Now keep your eyes peeled and blast anyone who threatens to get near to win the game.

Capture the briefcase

The aim of the game is to find a briefcase that's hidden somewhere.

Once found, your job becomes more difficult. You'll start playing hide 'n seek with the other players, 'cos you can't shoot whilst holding it.

▲ It's a huge shoot out as everyone starts racing to find the hidden briefcase. It could be anywhere...

▲ Use your vast range of weapons to seek 'n' destroy your opponents as you all start tearin' around to find the prize.

▲ Nice work, fella. Now you've got the case, the longer you can hold onto it, the more points you'll be awarded.

Star of the show

If all these exciting multiplayer options aren't enough to whet your appetite, just wait 'till you see this amazing feature!

If you've ever wanted to play as yourself in a multiplayer fight fest, here's your chance. By slotting a Game Boy Camera into a Transfer Pak, you'll be able to take a picture of yourself and actually be in a Perfect Dark deathmatch. Here's exactly how it works...

1

Connect your GB Camera and Transfer Pak together. Line up a straight on shot, and hit **Z** to take a snap.

2

Now cut around the picture of your favourite face and select the type of head you want to have.

3

Once you've chosen your costume, it's time for some real blastin' fun. Hey look, there's NOM Editor, Dave.

Now you can race after your mates in a class battle to see who's the Perfect Dark multiplayer champion.

Portable power

A Game Boy Color version of Perfect Dark is set to blast its way onto your mini machine later this year.

This adventure sees Joanna in the South American jungle, trying to stop a company developing vicious cyborgs. As well as having the chance to link up with a buddy's GB for a deathmatch, you can exchange data between the N64 and GB versions using the Transfer Pak. It's hoped that you'll be able to swap character and level data too.

You've gotta wipe out the guards and rescue the hostages trapped inside to save the day. Good work, Joanna.

The mysterious cyborg corporation is up to some filthy tricks in the South American jungles. Watch out for that giant robot spider, Joanna. It's gonna attack!

There's even a wicked target range where you can perfect your shooting skills.

We think...

Goldeneye is dead... long live Perfect Dark! With ace weapons, massive missions and mind blowing multiplayer, this will be the best shoot 'em up ever.

ECW Hardcore

By: Acclaim

Type: 3D Wrestle fest

Release: March

▲ Weapons play a big part in the blood drenched world of Extreme Championship Wrestling, and crowds love it!

Ways to ruck

Like in most wrestling games, there are a load of different ways to fight, from the one off ruck to the long haul of a Career mode.

Let's take a closer look at the ways you can wrestle in ECW Hardcore Revolution...

Exhibition mode

ideal for improving your moves and learning which wrestler to pick for some of the more in depth modes.

Versus

Here you can choose from any of the rostered wrestlers and play in either a one or two player ruck.

Hardcore violence

In the crazy, madcap world of wrestling, ECW is the nutty, blood drenched cousin of the WWF. It's flippin' mental!

Standing for Extreme Championship Wrestling, it features a ring with ropes made of barbed wire. It's not for the faint hearted!

These wrestlers are prepared to go that little bit further into the pain barrier. This is a wrestler for the hardcore grapple fan.

► Prepare to take part in the most violent, hardcore wrestling that money can buy. It'll hurt just watching!

▲ Having weapons to use opens up a whole new world of violence.

▲ If you're squeamish, look away, 'cos this is definitely gonna hurt.

▲ When you're rucking in a cage like this there isn't any escape.

Tag Team

In this mode you hone yer tag team tactics to the max. It's an ace two against two fighting bonanza.

Tornado

It's every man for himself as four grapplers go absolutely mental in the ring. Pretty scary, if you ask us!

Two Vs One

Could you handle the wrath of two wrestlers at the same time? Well, here's your chance to prove yourself!

Three Vs One

If you can cut it here, then you can cut it anywhere. Amateurs beware! This mode's only for the best!

Battle Royal

Four up for it! Wrestlers go hell for leather to be the best. It's the last man standing who wins the bout.

Lumberjack

It's you versus another wrestler. But if you leave the ring, there are two blokes there to batter you.

Revolution

Learning the moves

Half the fun of a wrestling game is learning the moves. In ECW, instead of picking them up as you go along, there's a way to see all the moves you can use.

Whenever you're fighting an opponent, you can pause the game to access a list of moves your wrestler can use. So in no time at all you should be king of the ring.

▼ This is the kind of list you'll see when you pause.

Ready moves

Ready moves are the bread 'n' butter of wrestling. Use 'em often or you'll never win.

Turnbuckle moves

There are loadsa special moves once you're up on the turnbuckle, and they hurt bad!

Tie up moves

There are plenty of tie ups in every fight. Learn your next move and floor your rival.

Finishing moves

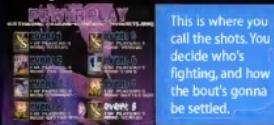

Your opponent's health meter's in the red. Finish 'em off with your most vicious move.

Career mode

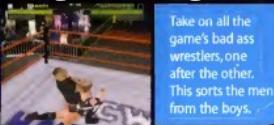

Go through the grueling ECW schedule from the Friday Night Thrill Zone to Anarchy Rulz bouts. Nasty!

Pay Per View

This is where you call the shots. You decide who's fighting, and how the bout's gonna be settled.

King of the Ring

Take on all the game's bad ass wrestlers, one after the other. This sorts the men from the boys.

Big entrances

Wrestling just wouldn't be wrestling without the spectacular entrances of the grapple stars. The bigger the better are the watch words here, and ECW doesn't disappoint.

In fact, it's hard to imagine how the entrances could be bigger. Smoke and lights all play their part, making ECW the king of razzmatazz.

There's nothing the crowd like more than a bit of showmanship. Take a look at these showoffs!

► Here comes the fat boy. He loves to whip the crowd into a frenzy with his fighting moves!

▲ Don't you dig those green lights? Perfect for a sleazeball like him.

▲ Rob Van Dam laps up the crowd's response. What a showoff!

▲ Jerry Lynn is the man, and he knows it! His ego'll get even bigger!

▲ They're behind you! Time for a secret surprise for the two blokes looking the wrong way. How stupid can you be?

▲ Gertner isn't gonna stop until the road sign's well and truly lodged where the sun don't shine! He asked for it.

Make 'em yourself

Like WWF Attitude, ECW sports a top notch Create a Wrestler mode. With this, the sky's the limit when it comes to creating your very own personal wrestler. So not only can you fight, you also get a chance to get artistic!

▲ Here's one we made earlier. Pretty snazzy tiger stripes eh, Nintendos? And what wicked tights!

▲ Our big' ol lad Ice Maiden's getting physical with Dawn Marie in the cage. Stop that, you two.

▲ Skull Cap's warming up. Just don't look 'im in the eye or there'll be trouble. Check out the tattoos.

▲ Check out our man Bill. He's one big dude, and violent enough to give his opponents a fright.

▲ The wrestling bout's over and War Paint's the winner. We made him, he's the best. Nuff said.

Create a Wrestler

How do you go about making monsters like our creations? All you have to do is make a few choices. Let's have a look...

▲ First choose a body type. Make them male or female, fat or skinny. It's totally up to you, but we like the fat ones best.

▲ How about some body markings? We reckon that wrestlers only look tough if they've got loadsa nasty tattoos.

► We've chosen a red bandana for our rock hard wrestling creation to wear. And doesn't he look mean wearing it? Although ear muffs would be a good look for him too.

▲ These guys never show any mercy. For them it's win at all costs, using whatever. ▲ Angel's in a spot of bother. Bruzese's got him in a tie up, can he get out of it?

► The crowd will go wild when you lay down some serious moves. So don't pussy foot about! Get well and truly stuck in.

Blood on the ring

ECW may not be suited to younger Nintendoids due to its naughty language and the mental, no holds barred style of ruckin'. It's crazy!

This baby cranks the fighting up to a whole new level, with barbed wire, weapons and contests settled by who bleeds first. So if you're of a sensitive nature then pass on this grapple fest when it hits the shelves later this year.

But we reckon you won't be able to wait to get your hands on this awesome game.

► He's just been thrown against a barbed wire rope. Ouch. Those spiky bits are bound to bring tears to his eyes!

► It's complete mayhem when there are four wrestlers goin' for it at the same time.

► Three guys laying into one. It doesn't seem fair and it's gonna hurt like hell.

► And now he's just about to be punched in the goonies. That'll smart.

► Corino wishes he'd stayed at home, tidying his sock drawer. Wouldn't you?

► Three against one, with weapons. Blimey, this is gonna get really messy!

Tooled up

Being an extreme take on wrestling, there are tons of things found in the ring the wrestlers can use to inflict damage.

Choose from trash cans, staple guns, briefcases and just about anything else you can think of. It may not be very sporting to use weapons but hey, that's ECW for you.

So if you don't like getting yer hands dirty, take a gander at these tools of the trade...

► The range of things to use is pretty impressive. Check out that metal rod! This fight's turnin' nasty.

► Stop! You've gotta be kidding! Credible's having the time of his life bashing Greener with this sign.

► A vicious whack around the bounce with a sword's bound to hurt. But they'd do the same to you.

► In the world of ECW, briefcases make very handy weapons, as Axel Rotten's finding out to his cost.

► He's using a large metal wheel to batter his opponent. Whoah! These guys really mean business.

► This guy's no singer songwriter, you know! But he's found that a guitar case is a handy weapon.

You decide

Everything from round length to the way bouts are decided can be changed.

So you're always the one calling the shots, and that's gotta be good news.

RING LIGHTS: WHITE
RING LIP: WHITE
RING POST: WHITE
SIDE CURTAINS: GREY
POST COLOR: GREY
RING POST: GREY
STAGE COLOR: STAGE 500
EXTRA SCREEN: EXTRASCREEN

► You can totally customise your arena. Adjust the lights, drapes, and even rope and canvas colour.

► You can also decide what kind of ruck's gonna be had.

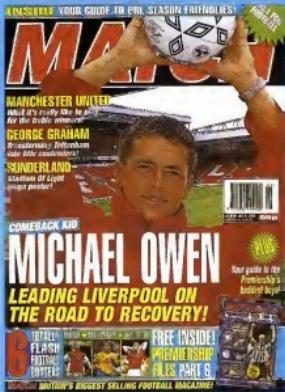

► And you get to decide how it's gonna be judged and settled.

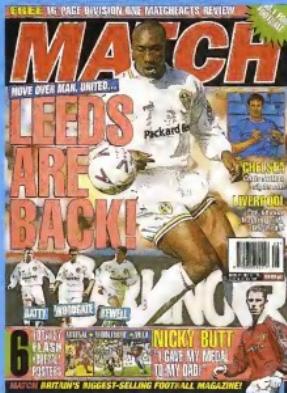

We think...

ECW is an awesome game with tons of different ways to ruck. If loadsa blood and fighting dirty are your thing, you'll go mental over this hardcore wrestler.

 Rumble Pak

Price: £39.99
Release: February

WE SAID "It's got power and playability. Watch out for this one."

Back to school

If you're planning to take on the Championship mode then you should think about spending some time at the Rally School.

The training course'll teach you how to get the best from your car. This should let you come the Championship right from the off.

So rather than finding your feet in the early stages and losing valuable points, you'll be able to start on the same level as the pros.

▲ Find out how to overtake the opposition without crashing. That's a pretty important skill in our view.

Rally fun

TG Rally 2's tearing onto the N64, leaving a trail of burnin' tyres and roarin' engines. It's yer chance to thrash a showroom full of rally motors and race on some very demanding tracks. You'll get to modify your car and do damage so realistic, it'll make you pay for the smallest mistake.

▲ At the driving school, you'll be taught how to corner your vehicle in all weather conditions. Very useful!

▲ Dealing with sharp chicanes is vital if you want to get ahead. Oh no, failed again. Better try harder next time.

▲ A lot of the tracks take you down incredibly tight alleyways. It's a real test of your control. But hey, no one said off roading was gonna be easy!

▲ Overtaking your rivals is an art, 'cos the other cars don't give you an inch.

LOOKS By no means a looker 'cos there's a fair amount of fogging, making corners jump out at you. Despite this, the cars are cool, with brilliant reflections and realistic looking crash damage.

Bad weather

Another cool feature of the game is that the weather conditions affect how your car handles and performs on the road.

When it's raining the tracks are slippery and visibility is very poor. Be careful when braking and cornering or you'll skid outta the race.

Caution's the keyword for the snow courses as well. Corners and bends can be deadly for yer car, and it'll land you with terrible repair bills.

▲ Mud sticks to the windscreen, so don't use the first person camera angle when cruising the off road tracks.

▲ The desert courses are really dusty. Don't get stuck behind another car or you'll be eating their clouds of dirt.

Choose yer team

There are six teams to race for. You've got to start with Team Sport Serro, but as you progress, offers from other parties start to flood in.

As you make your way through the various cups, the cars get bigger and faster. But to get the real monsters you've gotta do the biz in the Championship.

Getting to the top is tough, so you'd better be at your best. Let's have a look at the teams' cars...

▲ Take a look at this screen. This is where you'll choose yer team. You'll be a bit limited in your choices in the beginning.

Sport Serro

Great handling without much power. Can only go at 77mph.

Lariat

With a top speed of 82 mph, it has loadsa power. Hard to control.

Twin Racing

A great all rounder. Easy to drive, and goes pretty fast too.

Vortex

High power and bad handling make this a difficult motor.

Tri Lariat

Really flies around the courses. Great handling and very fast.

Midnight Motors

A good car for beginners. Nippy, with a top speed of 88mph.

SOUNDS Nothing special, with some pretty weedy sounding cars. But the worst thing is the really annoying knocking sound when you damage yer motor.

Thrashing mates

There's a four player mode that's ideal for throwing mud in the faces of your mates.

Two players can also team up. Let's take a look...

▲ Even though you're on the same team, the temptation is to race each other. Go on, knock 'em off the track.

◀ The four player mode is as fast as you like and loadsa fun. This race looks like it's set to go right to the wire.

Changin' courses

TG Rally 2 is in fact the sixth game in the popular rally series. It all started with Top Gear, way back in the days of the Super NES, before moving to the Nintendo 64.

Which one of the three N64 Top Gear games rules the rally roost? That all depends on whether you dig a simulation or arcade driving experience, or a mixture of both...

Top Gear Rally

Best bit Has some fantastic looking cars and brilliantly realistic handling.

Worst bit Terrible backing music and really slow cars at the start.

Overall This was once the best looking rally racer on the N64, but it's getting a little bit dated now.

TG Overdrive

Best bit Brilliant speed. A very fast rally game with some awesome motors.

Worst bit Dull looking tracks which appeared to be empty. Naff car noises.

Overall Definitely more arcade like than the first one of the series, with loadsa cool secrets to find.

TG Rally 2

Best bit The realistic damage adds a new dimension to the races.

Worst bit Takes ages to get hold of the mean motors. Terrible sounds!

Overall A cross between the first two games, and great for it. Realistic, but keeps its arcade feel.

GAME LENGTH We guarantee that the multiplayer will keep you coming back for more.

Nintendo

GAME SCORE

TG Rally 2 is a very enjoyable off road racer. The realistic damage may put some people off, but it's fast and full of thrills 'n' spills. The multiplayer mode's great and you'll never tire of thrashing all your friends.

Nuclear

Take to the skies and blast the nuked up terrorists.

Game Info

Price: £39.99
 Release: January

NUCLEAR STRIKE

WE SAID "This game is shaping up to be an absolutely classic blast 'em up. You'll love it."

War of the world

The fate of the world rests in your hands. Power crazed terrorists, armed with nukes, are hell bent on starting World War 3.

Your job is to hunt 'em down and destroy 'em, using helicopters, tanks and hovercrafts.

This is one blast 'em up which'll need loadsa skill if you're to prevent the world coming to an end.

▼ Some of your missions'll involve rescuing prisoners.

▲ There's non stop explosive action to be had. Prepare for some sore thumbs, as you fly your 'copter like the pros! □ Better not let those enemy helicopters take off, or they'll be gunning for you the whole way.

Awesome kit

You get to control some souped up vehicles. Check out our faves...

Apache chopper

The game's standard helicopter. Armed with cool weapons and able to take loadsa battering.

Hovercraft

This top notch craft is ideal for use in water. It has a kick ass cannon that'll lick anything.

Super Cobra

This chopper's more agile. It carries less fire power, but it's great for picking off terrorists.

Sea Apache

Used for sea based missions and armed with weapons that are ideal for sinking subs and boats.

Battle grounds

Budding chopper pilots get to explore five awesome areas. The first takes you to a series of tropical islands. From here, the action moves to rainforests, urban areas and deserts.

The number of enemies increases the further you get. Better watch out, 'cos their weapons get more deadly and their tactics more cunning.

▲ Take a look at these tropical islands, then blow 'em up. Get blastin', pilot!

▲ The port is the first urban area you get to destroy. It's a right good laugh.

▲ The action moves onto a jungle area, where you've got to blast a fortress.

▲ Time to try some underwater explosions. Blow that sub to lill pieces.

LOOKS Very sharp graphics and some excellent looking areas. There are great explosions, too.

Strike

Getting about

The levels in this game are massive. Luckily, there's a handy map to show where the enemy's grouped. It also points out where ammo, fuel and guns are stashed.

Once you select something, like a fuel dump, your on-screen compass'll tell you the direction to head to get it.

► To find what you're looking for, pause the game to bring up your map. You can then highlight what you want to find, whether it's an enemy base or a fuel dump.

► Return to the game and line up the two arrows to find it. Get it right and you'll fly right over what you're looking for. Simple, eh?

Cool weapons

The basic weapon that you'll use most often is the Chain Gun. It'll easily take care of all the enemy soldiers and some of the weaker tanks.

If you want to destroy something bigger, like a radar station, then rockets and missiles will get the job done quicker. And you'll take less damage from the baddies who are always trying to shoot you down. Let's take a closer look...

► The Chain Gun'll make mincemeat of soldiers on the ground but it's no good if you want to blast something bigger, like a radar station.

► For bigger targets such as jeeps, you'll have to switch to your rockets. Launch one of these and the explosions'll look absolutely awesome.

► If you want to take out a tank or radar station, go for a missile. But remember, you don't want to waste a missile on something lightweight. Make 'em count, or you won't finish the missions.

Massive missions

Nuclear Strike's broken down into missions. They range from blowing up villages to rescuing fellow members of your own organisation.

And if you get side tracked you can always check your mission objectives on the map screen. It always shows you what you're meant to be doing.

► You've got to pick up one of your agents but, shock horror, it looks like you've walked into a trap!

► Before each mission you're given your objectives, so pay attention if you'll get confused!

► Taking out the slave boats is hard, 'cos it takes a lot to sink 'em.

► Your objective for this mission is to escort a jeep to base. Cover it!

► Here, your aim is to deliver some treasure to one of your allies.

GAME LENGTH ► It'll take a while to finish the game, but after that there isn't much to come back to. Shame there's no multiplayer. Pretty big, though.

Nuclear Strike is a blast from start to finish. It's full of combat, and stacked with cool weapons and awesome vehicles. It is let down by a lack of multiplayer action and replay value. Worth a rent, though.

Gex 3 Deep Cover Gecko

Game Info

Price: £39.99
Release: March 2000

WE SAID → "The first game was rubbish, but this one promises to wow platform fans."

Lizard moves

Gex has got some pretty wild moves for a reptile. And he'll need all of 'em if he's to complete his massive adventure and save Xtra.

So just sit back and marvel at his lounge lizard tricks...

Tail Whip

This is Gex's attacking move. Using his strong tail, our hero can bash away at baddies.

Gex, the heroic reptile, is all set for a brand new adventure.

This time around, our amphibian friend's gotta rescue the beautiful Agent Xtra. It's a mission which'll see him travelling across 25 stunning worlds as he races to find her.

Gex 3 Deep Cover Gecko has some ace new moves for you to get to grips with, and you'll need 'em 'cos there are loadsa new bad guys to bash.

There's also a healthy slice of Gex's off-the-wall comic catch phrases to keep you chucklin' as you play. You'll find it a laugh a minute!

Everyone's favourite lil' green lizard's back for more platform laughs. Hold on to your sides, 'cos they might just split...

Return of the reptile

▲ Oh no! The lovely Agent Xtra's been kidnapped, and it's Gex has to save her.
► Xtra manages to send a message to Gex. He's chillin' out in his underground lair.

Tail Jump

Double tap the **B** button to propel Gex to those hard to reach areas for secret rewards.

Tongue Flick

Gex has got a long tongue. It'll be put to good use catching flies and grabbing onto ledges.

Wall Climb

Like all the best geckos, Gex can scurry along walls to get to areas he couldn't reach before.

▲ You get to play cool mini games. One of the best is this wrestling match.

◀ Like most reptiles, ol' Gex is equally at home both in and out of the water.

SOUNDS ▶ You'll either die laughing or get sick to death of Gex's funny one liners. Other than that, there's nothing too special to write home about.

Bashing baddies

A platformer just wouldn't be the same without loadsa different baddies to deal with. And Gex 3 certainly has its fair share of nasties.

The first ones you come across are a bunch of evil minded Elves. Luckily, a couple of whacks from Gex's awesome tail will soon take care of them.

▲ Elves make frequent appearances in Gex 3, but they're quickly defeated using a couple of Tail Whips. Take that!

▲ This jolly Santa is comin' with a secret pressie for you... game over! Now that's not very nice, is it Nintendoids?

▲ Gex must kill the evil TV sets who are out for his blood. All the proof you needed that television is bad for you.

Collecting stuff

Like most platformers, the game'll see you collecting all sorts of things. And you just know they'll be in some pretty hard to find areas. Isn't that always the way?

Being a lizard, Gex loves catchin' insects, so there are big metal flies to pick up on your travels. Look high and low for them; 'cos you won't gain access to the other levels without 'em. You've also got to find hands which'll give you extra lives, so you can keep playin' for longer.

▲ You won't be able to access certain levels without flies. Better keep yer eyes peeled for 'em.

▲ Hands give you extra lives, but you've got to search high and low in some really hard to find areas.

▲ Loadsa missions are timed, but luckily there are some time bonuses scattered around.

LOOKS ▶ Not bad looking, with tons of variety in the 25 worlds you explore. But it's certainly not up to the stunning standards of Banjo or Mario.

Wonder worlds

The cheeky gecko gets to explore 25 massive worlds. Each one has its own theme and different brain teasin' puzzles to solve.

Levels are set in pirate ships, winter wonderlands and even the wild, wild west. Gex also gets to try on wicked costumes, some of which give him super powers and new abilities. Our favourite is the Dracula cape, which allows the green fella to fly. Let's take a closer look...

▲ With a name like Holy Moses you know it'll involve deserts and camels.

▲ Gex gets to hang out by a swimming pool in the Clueless in Seattle level.

▲ There's even a level set in a battle zone. Here, Gex makes use of a tank.

▲ The lil' guy does his Indiana Jones impression for the Temple of Doom level.

GAME LENGTH ▶ With 25 levels to get your teeth into, Gex 3's gonna keep you playing for ages.

Nintendo OFFICIAL MAGAZINE GAME SCORE

Gex 3 is not a bad platformer. In fact, it's much better than the last one in the series. If you love platforming, it's worth a try. But it's not a patch on the likes of Banjo, Mario or Rocket. Rent before you buy.

European PGA Tour

Game Info

Price: £39.99
Release: February

WE SAID "European PGA Tour is incredibly realistic and the smallest error can give you huge problems."

Get onto the links and give the pros a damn good thrashing. European PGA Tour's about to tee off.

Hole in one

Until Mario Golf hit the greens, there was very little to keep ball whackers happy in the winter months.

Now the big boys from the PGA are here, hoping to score a hole in one on your N64. Take on the world's best on some of the finest courses in Europe. Drive the long fairways, chip from the bunkers and sink your ball as you battle to become the number one player on the European tour.

If that's not enough, you can even get three of your mates over and play a round on one of the four opening courses. This could be the golf game we've all been waiting for.

▲ Launch the ball down the middle of the fairway. Great shot! Now hit the green.
◀ The course might look nice, but it's packed with hazards that'll stump even the very best pro golfers.

Play a round

Okay, you want to play a round, but which mode do you choose? Go for Quick Game and you're straight on the tee. This is a practice round with no competitors, so use it to sharpen your skills.

There's also Non Tour Golf for Stroke, Match and Skins challenges and Tour Golf which lets you enter the European circuit without qualifying.

You can play as one of the top pros including Colin Montgomerie, Sergio Garcia and Ian Woosnam, or create your own player and prove you've got what it takes to become king of the course.

▲ Opt for Quick Game and you're on the course in a matter of seconds.

▲ If you wanna game of Match Play, Non Tour Golf's the one for you.

LOOKS It all looks pretty, but when a game plays this slow you'd expect everything to be spot on. The golf swing is very impressive, though.

▲ You'd better be good if you're to enter the pro tour.
► You're not even on the leaderboard. Better return to the practice course.

► A dinky chip onto the green. A short putt and you're on the next hole. It all sounds simple, but hit the ball too hard and it'll roll away from the pin.

Strike the ball

This is the first golf game to give you a choice of controls. Now there'll be no excuse for you to hit the ball badly and finish over par.

They're all slightly different, so you'll need to visit the practice links and see which one's for you. Here's how you strike the ball with all four options...

2 Click

This is the easiest play control. Hold **B** to start the gauge. Now release to highlight power and press **B** again on the sweetspot. Definitely the one for beginners.

3 Click

Tap **B** to move the power gauge. Press again when you're happy with the power and then hit the sweetspot for an awesome shot. A good choice and very easy to use.

X and Y

Tap **B** to swing the power bar. Now use either **A** n **□**, or **B** n **□** on the D-pad to set power and hit sweetspot. Only use when you want to increase the challenge.

SOUNDS Very little's needed to make this realistic. Peter Alliss will have you believing you're watching TV.

▲ You're safely on the green. Don't hit the flat rough at the back of every hole. You'll go out of bounds and lose a stroke.

Putt out

You've finally made the green, but you still need to sink the ball to make your par.

This time it's easy, 'cos the computer informs you of the power needed to hit the cup.

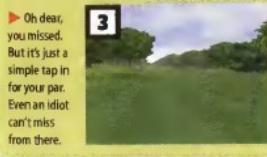

Have a look at the arrow to see if there's any movement. Now move the cursor and set the power. Hopefully, you'll putt out first shot.

▲ Line up with the hole. Hit the white line and it won't be too far away. Go on, knock it in first shot.

▲ Keep your head down and make good contact. The ball's on its way. Get in the hole!

► Oh dear, you missed. But it's just a simple tap in for your par. Even an idiot can't miss from there.

Hazard holes

All of the courses are perfectly recreated, and they're littered with bunkers, water hazards and rough.

Make sure you check the wind direction before lashing out at the ball. A strong breeze can send your ball off line and you'll struggle to make par if you're buried in the long grass. You may also need to switch clubs 'cos you'll lose distance if you stray from the fairway.

The out of bounds areas are another problem. You'll hit 'em if you drive too far wide or past the green.

1

▲ The mere sight of water puts almighty pressure on you. Don't mess up now or you'll have to replay your shot.

▲ Phew, you've just made it. You're over the drink and safely on the green. Now, go get that birdie!

▲ Playing from the bunkers is tough. You'll also lose lots of distance, so make sure you hit the ball much harder.

GAME LENGTH You won't feel in control even after playing for a while. The multiplayer's much better, but only 'cos you're all making the same mistakes.

GAME SCORE

This should've been the golf game to keep all ball whackers happy. Unfortunately, EPGA fails to make it off the first tee. The gameplay is slow and there's a lack of excitement. Leave this alone and opt for Mario Golf.

Donkey Kong 64

Get health and powers from Cranky, the easy way

Don't be put off by the mammoth size of this game. With so many items to grab, just starting DK64 can be quite daunting.

Sit back and enjoy it, taking one step at a time. In the meantime, here's a clever way to get more health and powers. It'll make yer life easier!

Health tip

▲ If yer watermelon health is looking dangerously low, just jump into a Tag Barrel. Jump out again and your health will be up to the max once more.

Get powers

▲ Instead of travelling a long way into a new level to find Cranky, exit and find him on an earlier level. You'll still get the new powers you're looking for.

Replay mini games

▲ Find all 40 of Snide's Blueprints and give them to him. Then, whenever you visit him you can play any of the mini games you want. Isn't that excellent?

WWF Wrestlemania 2000

FIRST EVER TIP! How to get the hidden bruisers

Ever since this game came out, we've received loadsa calls here at NOM Towers. Nintendoids just can't believe how cool it is!

Wanna know more about it? Here's how to get some extra wrestlers...

Secret characters

▲ For Cactus Jack, go through Road To Wrestlemania until he appears, then beat him. For Dude Love, get to Summerslam in RTW, then win WWF Title. Simple, or what?

▲ For those cool dudes, Jim Ross and Jerry Lawler, get to Wrestlemania. Then, just before you battle, they'll appear and become selectable characters.

Super Smash Bros.

The Nintendo all stars smash it up!

Just like all good beat'em ups, there are a number of secret characters and extras to win in this awesome game.

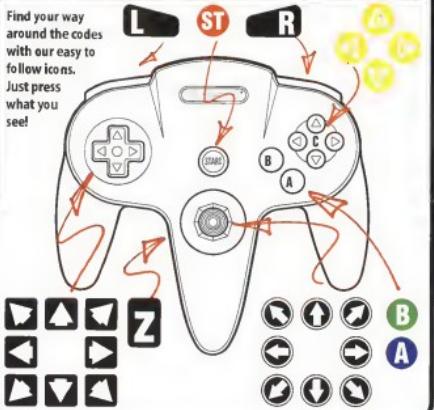

It takes skillful play. Here's how!

► To unlock Item Menu that lets you decide which and how many weapons appear, play Versus mode 50 times.

Rainbow Six FIRST EVER TIP! Commando codes

[View Details](#) | [Edit](#) | [Delete](#)

Get that mirror out, stealthy soldier dudes, 'cos we're givin' you the codes to transport you to any level in the game. Cool!

If you fancy controlling an elite team of troops, you'll love this game of strategy and skill. Get the slightest command wrong and you'll see your operation completely ruined.

We've got passwords that'll take you places you've never seen before.

Veteran Passwords

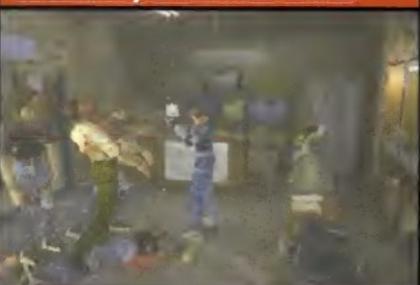

Resident Evil 2

Get yourself a clean pair of pants!

Claire and Leon would probably jump for joy with these codes, but they're too busy kicking zombie butt to notice!

If you don't know what you're doing, you might find yourself wandering around for ages, slowly running out of ammo.

Invincibility and infinite ammo

A screenshot of a game's main menu. The menu items are arranged in a grid-like layout with some overlap. The visible items include 'New Game', 'Load Game', 'Exit', 'Options', 'Help', 'About', and 'Quit'. The background is dark, and the text is white or light-colored.

Play as Tofu in the extra game

Jet Force Gemini

Grab yer Tri Rocket Launcher, it's time for action!

With its cute looking characters and cuddly enemies, you could be forgiven for thinking that this game's for kids.

Letspeak tip

▲ Here's a good technique you won't find in the manual. Instead of tapping  to hover, use . You'll hover properly and use half the fuel.

Let Floyd help

▲ Even if you don't have a mate handy, use Floyd in boss battles. Hide behind an obstacle, then press **□** on Controller 2. Floyd will do the shooting.

Your Tips

Hello again, my cheating friends! Welcome once more to the tips page written by you, the nutty Nintendo nation!

Lego Racers

Shortcuts for this building block racer

What a weird 'n' wonderful racer! If you've mashed up Mario Kart and got Diddy Kong Racing done 'n' dusted, why not give this a go?

We've been given the game's best shortcut by ace Nintendoid, David Hawley. We salute you, David! He's also sent us some cool codes that'll give you extreme speed. We reckon these'll come in very handy!

Cool shortcut

▲ Magma Moon. Just before the blue and red gates are blocks on the left. Use blue block to fade blue gate, and go through.

▲ As you pass the glass barrier, look at the monitor that appears just after it. Say it has a red, blue then red block, for example.

▲ On your next lap, go through red, blue then red gates to open the glass barrier and shave up to six seconds off lap times.

Mega speed codes

▲ Enter FLYSKYHGH as a driver's name for non stop Rocket Power. For faster standard speed, enter FSTFRWRD as a driver name. Now you'll whizz round those courses.

WARIO'S WINNER
David Hawley,
Whitehaven

Turok Rage Wars

Multiplay carnage codes

The only multiplay game to seriously challenge Goldeneye's crown is herel Race around levels killing dino lizard aliens. Sounds like fun, eh?

Get cheats by opening up the hidden characters and getting high rankings with 'em. You can also get Invincibility, thanks to Grant Beasley.

Cheat Menu

▲ When you get to the Main Menu, press **□**. You'll see a Cheat Menu appear. Get a Special Character and a higher ranking. Then you'll be able to use these cheats.

Invincibility

▲ Press pause after starting a game. Press **□**, **△**, **□**, **△**, **○**, **○**, **○**, **○**, **○**. If you've done this correctly, you should hear Turok say "I will never die". Now, go for it!

Donkey Kong 64

Orange Grenade tip

If you've ever had to use grenades in a game, you'll know they can be quite tricky. The Orange Grenades in DK64 are no different.

They keep bouncing all over the place! Use this tip and they'll land exactly where you want 'em to, every time. Cheers, David!

WARIO'S WINNER
David Jones,
East London

Lethal Orange Grenades

▲ If you hold **□** then press **○** to throw Oranges, it isn't accurate enough. Try this method instead. Get out gun and press **○** for target mode.

▲ Now hold **□** and press **○**. The Orange will go wherever the target cursor is. Helpful, especially when you have to defeat enemies within a certain time.

Hot Game Help

Got a Nintendo related problem? Write to our tips Grandmaster, Alex C. He'll be able to sort you out, and no mistake.

WWF Wrestlemania 2000

Blood! I want blood! I can see a Blood option in this super cool game, but I can't turn it on or off. *Claude Gouci, N London*

■ THQ, the makers of this mammoth beat 'em up told us that the PAL version was made specifically for Europe, and the Germans are very strict on violence in games. Believe it or not, they banned Goldeneye! As a result, the Blood option was taken out. Our spies are trying to see if there's a code to turn it back on.

Donkey Kong 64

Can you tell me the best strategy to use in the Jetpac game?

Josh Wotts, Surrey

■ All you need is 5,000 points. Just dodge the enemies and pick up any extras that drop from the sky till you've got enough points.

▲ Don't bother putting the rocket back together and moving to harder levels. Just keep dodging and picking up the extras.

Can you help me, Al? How many Golden Bananas do you need to face King K. Rool? I'm dying to know! And can you tell me more about the Cheat Menu? I've heard there is one, but I can't find it. *Jo Budding, Holland*

■ Golden Bananas aren't the way to tell whether or not you're ready for K. Rool, Jo. As soon as you've freed K. Lumsy by getting the final key at the end of the Hideout Helm level, you can battle 'im. But we wouldn't advise you to do that 'til you've got all 201 Bananas. 'Cos if you haven't, you won't get the good ending. As for the Cheat Menu, you need to find every Banana Fairy. They're not that hard to find. Take photos of them all and a Cheat Menu with unlimited items is yours to use. Pretty simple, eh?

▲ Assemble Floyd and he'll become a valuable asset. Press **B** on Controller 2 to use him in a cooperative mode.

Jet Force Gemini

I just can't find the last Floyd piece. I've seen it down Grimble's chimney, but I can't get to it. *Richard Higginbottom, Chesterfield*

■ No problem, Richie! On the side of the yard with the exit is a small hut with a metal door. Use explosives to blow it open. Go inside and use the crowbar to open the trapdoor, and go down into the dark sewers. At the end of the corridor is the final Floyd component. Now go back and talk to Floyd. He'll let you leave via the Exit.

Pokémon

I desperately need some help with this ace game! I've just entered Saffron City and want to go into the Silph Co building. 'Cos I've heard that the Master Ball used to catch Mewtwo is inside. Problem is, there's a guy in front of it who won't let me in. Can you do anything to help me, NOM?

Andrew Mills, Newcastle

■ Yes we can, Andrew. You'll have to go through Team Rocket's HQ in Celadon City, get the Silph Scope and make it to the top of the Pokémon Tower to get the Poké Flute. Do this, and the guy in front of the Silph Co building will let you in, no probs.

Could you tell me how to get out of a cage in a Cage match. My friends keep beating me! *Christopher Connor, Crowthorne*

■ If your Special meter is still flashing after a Special Move, you'll climb quicker. Hit **A** to start climbing, then hold **A** until you reach the top. Once there, hold **A** until the word 'Tap!' starts flashing. Start hammering the **B** button to force you up higher 'till you're over the top.

New Wayz To Play!

Get more life out of games that you thought were dead and buried with these cool new ways to play. Got a tip yourself? Send it in and win a prize!

WARIO'S WINNER

Greg Irish, Irvine

Goldeneye Toilets

▲ Four players split into two teams of two. Facility. Licensed to Kill. Pistols. Go to toilets at the top of the level. One player from each team hide in a cubicle.

▲ One player then shoots two random doors. If you kill your team, you'll lose a point. If you kill one from their team, gain one.

Turok Raptor Attack

▲ Turok II or Rage Wars. Multiplay, four players, any level. Three players all choose Raptors against one player as anyone who carries weapons.

▲ Give player one a chance to get weapons. Then, as the fast moving Raptors hunt him down and scratch 'im to death. If you can catch him, that is.

TIP FROM!

Iain Munro, Kazakhstan

Can You Help?

Classic questions for the best games always crop up in the NOM offices. Answer 'em and you might win a prize for yer troubles.

Goldeneye

Is there any chance you could tell me exactly how to get Invisibility in the Archives? *George Donnell, Blackburn*

■ George, your wish is our command! Paul Rignall of Isleworth was the first to write in and has sent a really detailed walkthrough with maps. An he's won himself a prize! Send in an SAE if you want to see it.

Legend of Zelda

I've heard tales of a Giant's Sword that defeats enemies with one swift swipe. But I'm damned by Ganondorf if I can find it! What do I do? *Jenny Gosling, Northampton*

■ Consider it done! A good guide to Adult Link's trading sequence was sent in by Ilyas Saleemullah of Manchester. Again, send us in an SAE if you need these tips.

DK Island

New levels opened, new Golden Bananas to find

This area acts as a hub, leading you to all of the other worlds. But it's also like the other levels 'cos there are loadsa Bananas to bag.

Blueprints

Towards the end of the game, each new entrance hall that K. Lumsy opens for you will have a Kasplat guarding it. Here's what to do...

▲ A Kasplat is in the Hideout Helm entrance hall with Donkey Kong's Blueprint. Sniper the far away switch to bring up a platform leading to it.

▲ Find the Kasplat in Gloom Galleon entrance hall with Blueprint. You can tell whose Blueprint the Kasplat is holding by looking at the colour of his hair. Simple, eh?

Diddy Kong

Diddy's gonna have to be a real expert flyer in his Jet Barrel.

He's got to try his hand at flying to the snowy peak of DK Island and to the top of the icy Crystal Caves entrance hall. Get going, lil' Diddy!

▲ In Crystal Caves entrance hall, change to Diddy and look around for his Jet Barrel. There it is, right above you!

▲ Jump into it and fly till you see a red Wrinkly door on a ledge. Play Guitar Gazump on pad, Squawks will bring you a Banana.

▲ Use the Jet Barrel that's outside the entrance to Fungi Forest to find Challenge Barrel at the top of DK Island.

Donkey Kong

To get these Bananas, Donkey needs his Strong Kong powers.

Then he'll be able to get to the places other Kongs can't reach!

Chunky Kong

Completing the Crystal Caves opens the Hideout Helm lobby. Chunky's Barrel is inside.

Tiny Kong

A couple of quite easy Golden Bananas to bag for lil' Tiny here. Make sure you've got enough Crystal Coconuts to last. You'll need 'em.

▲ Angry Aztec entrance hall. As Diddy, charge the two gongs to expose a Challenge Barrel. Now change to Tiny and use her Ponytail Twirl to get to it.

▲ In Gloom Galleon entrance hall. First, make sure the Kasplat won't bother you, then Simian Slam blue switch as Chunky to open up an underwater hole.

▲ Now change to Tiny in nearby Tag Barrel, Ponytail Twirl to Mini Monkey Barrel, into water and swim through the gap to get the Banana. Well done!

▲ Go behind the Queen Banana Fairy's Island to find a Feather Switch. Shoot it and you'll raise a gate in front of a Golden Banana. Now grab it, you deserve it!

Angry Aztec

New areas to explore as Chunky Kong

Unfortunately, this is the last time you get to play the blinding sandstorms and stinging quicksand of this level.

Chunky Kong

Last three Golden Bananas to nab here, and they're all Chunky's. Use his Hunko Chunky powers and figure out a couple of puzzles.

▲ In passage between two areas, use Hunko Chunky Barrel. Lift rock and place on table. This opens cage. Into Challenge Barrel.

▲ In the passage leading from the entrance to the first area, shoot Pineapple Switches. Then you've gotta place jugs on tiles with the same symbol.

▲ Into temple with five doors by shooting Pineapple Switch. Follow path through to end for Kremling Kosh Challenge Barrel.

Gloomy Galleon

Glug, glug! Underwater antics in this wet level

This is probably the hardest level to find all the Golden Bananas. You've gotta change the water level and explore the entire area.

Blueprints

As you've been spending most of yer time under water in the lighthouse area, you might have missed Diddy's Kasplat. Now's yer chance to get it!

▲ To the right of the lighthouse area as you enter, you'll find a Kasplat sporting a lovely red tuft of hair. This means he's carrying Diddy's Blueprint. So go and grab it. What are you waiting for?

▲ Take Diddy's Blueprint to Snide in same area. The water must be at its highest level. All the mini games will become available when you have all the Blueprints. Now you can have some serious fun.

Chunky Kong

All of Chunky's remaining Bananas are in the lighthouse area.

You've gotta find some sunken ships and some that are still sailing.

▲ In the lighthouse area on ledge with Diddy's Kasplat, play triangle on pad. Go to top of sunken ship in area opposite and enter Challenge Barrel.

▲ Simian Slam the trapdoor on the Kremling galleon sailing around lighthouse and enter. Avoid cannonballs then Primate Punch rotating pole.

Lanky Kong

Only Lanky can be Enguarda after swimming into his box.

► Go to the lighthouse area as Lanky. Change to Enguarda in underwater box. Then ram the treasure chest that's near to the Mermaid's home.

Fungi Forest

You've been here at least twice before

You'll need to use Lanky's Orangstand Sprint to get his Bananas here.

Donkey Kong

Just one more Banana, but one of the switches is well hidden.

▲ Use Strong Kong power to avoid fire thorns. Slam switch behind rose bush house in water mill area. Go In.

▲ Simian Slam the Fox on the first right, slam switch that appears. Up ladder, swing to Challenge Barrel.

Diddy Kong

It's up to Diddy to get the water mill up and running.

► Climb to top of water mill, stomp switch, into new door. Shoot On switch, Chimp Charge green arrow. Golden Banana now in cage outside. Play Guitar Gazump on pad near rose bushes to explode cage.

Lanky Kong

Remember the normal Banana colours the Kongs get here, or you won't be rewarded at the end of this puzzle.

▲ To top of the giant mushroom. Stomp switch and into door below. Two rooms hold Bananas; you've got one already.

▲ Into the one with coloured mushrooms. Simian Slam yellow, red, purple, green and blue for the Challenge Barrel.

▲ In autumn tree area, day time. Find rabbit next to a tomato house and race him. You'll need to use Orangstand Sprint.

Chunky Kong

Killer tomatoes try to get Chunky! Use yer Simian Slam to squish 'em.

► Into passage to left of main entrance. Jump into Chunky Barrel and Simian Slam tomatoes. Carry apple out and to left. Use cannons to get to outside top of giant mushroom. Stomp Chunky Switch, into door. Shoot tiles to get Chunky face.

Creepy Castle

Scary goings on in this ghostly level

You've had to fight the creepiest of ghouls and skeletons with swords on this level. But luckily, Diddy's last Banana is waiting!

Diddy Kong

Diddy will enter a skull shaped temple to battle some ghosts.

► Jump down ledge on left when you see tree with Lanky Coins. Into door. Hit Peanut Switch next to skull to left, go in. To next Peanut Switch, in. Chimp Charge numbers and kill enemies.

Crystal Caves

A massive cavern with sparkling crystals of ice

Time to go underground in this difficult level you've not visited yet.

Careful on the narrow ledges. Keep moving to avoid the falling icicles.

Blueprints

The Kaspalots are pretty easy to find in the Crystal Caves.

They're all near the main landmarks in the level so they're not hard to spot.

► Near the Ice Castle is a Kaspalot with a yellow tuft of hair. This means he's holding DK's Blueprint. Go and bash him to get it!

► Use Bananaport Pad 4 on top of pillar near Igloo to get to Tiny secret area opposite Funky. Kaspalot in here with Blueprint.

► On the platform above Candy you'll find a Kaspalot who's holding onto Tiny's Blueprint. Better go and grab it, 'cos you'll need it!

► Lanky's Kaspalot is on the pillar above Funky. Touch Pad 5 as Diddy with the Jet Barrel to complete the Bananaport. Nearly there!

► Now, as Lanky, get to Bananaport Pad 5. It's outside the wooden building which has five doors near Candy. Use it.

► A Kaspalot is sending out shockwaves from the top of the Igloo. He's holding onto Chunky's Blueprint so you'd better go and get it.

Donkey Kong

It's a good job Donkey's got a hairy coat, 'cos it's freezing in here!

► Near Cranky on a narrow walkway across a chasm is a Barrel Blast Pad. Press **B** on it and get to the end for another Banana.

► After Diddy has flown through the star above the igloo, play bongos outside it and enter. Get to centre of rotating room for Banana.

► Boss. Angry Larry Dillo again. And not much harder than last time. Dodge fireballs then throw TNT Barrel when he chuckles.

Diddy Kong

Probably the hardest Banana to get in the whole game. Diddy must use his Jet Barrel and beat six enemies before time runs out.

► Into shack above Candy with five Music Pads. Defeat all the enemies then light the candles by flying up to them.

► Fly through star on top of igloo to make Music Pads appear. Play guitar on Music Pad and throw Barrels off number pads, 1 to 6.

► Use Jet Barrel near Igloo Castle to get to Challenge Barrel. Kill all the enemies then get yourself to that finish line.

► Play guitar on pad outside five door building near Candy and go in. Defeat all enemies in time. This is a toughie.

Tiny Kong

It's a good job that one of the clan is small and agile. There are lots of small gaps that must be explored, and there's only one Kong for the job!

► On shack above Candy with five Music Pads, play sax on Tiny's Pad and go in. Bomb crocs with Oranges for Banana. Easy.

► Opposite Cranky is a Mini Monkey Barrel. Into small entrance and follow it through to find a Golden Banana. Well done, Tiny!

► Play sax on Music Pad outside igloo and in. Stomp on the moving red circle four times before the time runs out.

► Into small entrance opposite Funky. Stand on the Monkeyport Pad to get inside small glass building next to igloo. Banana.

Lanky Kong

One of the powers that Lanky gets is an Orangstand Sprint, using his long arms. He'll put them to good use here.

You also get the chance to repeat a race with a beetle that you came across earlier on the game. This should be a lot easier than the first time.

► Take the first main left. It leads to Candy's Music Shop. Above her you'll come across three wooden shacks, one that has five doors and two with only one door.

► Enter the shack that has one door and the Lanky Switch. Simian Slam on one side of the room then Orangstand Sprint to get yourself another Golden Banana. Cool!

► After Diddy has released the Music Pads by flying through the star above igloo change into Lanky. Then play trombone on Music Pad outside and go into igloo.

► Kill all the enemies you find on the ground floor to expose Baboon Balloon Pads. Stand on them and press □. You'll float up to a Challenge Barrel.

► Stomp on the Lanky Switch outside Ice Castle and go into it. Once inside you'll come across a friendly competitor who's just discovered an excellent new game.

► He's found that he can Simian Slam tiles in the middle of the floor, just like the Kongs. You've gotta slam more than your opponent to win a prize. Get goin'!

► Use the switches that you'll find on the side of the Ice Castle to float to the top and in. Win the race. It should be much easier than the last time you met this speedy beetle.

Chunky Kong

Chunky needs all his weight to Primate Punch a few things. His ability to make himself invisible comes in pretty handy, too.

► Above Candy you'll find an old wooden shack with a Music Pad and a door for each character. Play the Triangle Trample on Chunky Pad.

► Go into the door that opens. Stomp the red circles you'll find inside without any lights shining on you. Use Invisible Pad, into Challenge Barrel.

► Enter the level and head for the ice over wall. Primate Punch to smash, then enter.

► You've gotta make yourself become Invisible by using the Monkeygone Pad. A Golden Banana will now appear. Better go and grab it, quick.

► Play Triangle Tremor on Music Pad outside igloo and go in. Protect the brat from enemies for a reward.

► Find a large boulder on a walkway near the Ice Castle and use Chunky's hefty size to lift it. Or press □!

► Now carry it around 'till you see a nearby plank rising. Place the boulder on a switch at the top of the plank.

► As soon as you place it on the switch, the ice around a Golden Banana near the igloo explodes. Go get it!

Hideout Helm

Last level before the battle to end all battles

This is the level where you'll find the final key to K. Lumsy's Cage.

You'll also need to turn off the Kremling's evil Blast-o-Matic gun in the process. You're on a timer, the amount given depending on how many Blueprints you've got. Better get yer skates on. Good luck!

Find yer way

The first stage of this level is all about finding your way to the control room. This should help.

► You'll have to use all of the Kongs' power to the maximum to find the Key for this level. Go up the slopes as Lanky using his Orangstand.

45:20

► In the next area, become Chunky, and shoot the Pineapple Switch. It'll open a secret door. Go in and on.

45:35

45:36

► The Mini Monkey Barrel is your next clue. Turn to Tiny and go through the pipe sticking outta the floor.

Control room

It's time to turn the Blast-o-Matic gun off, once and for all.

You've seen this area in cut scenes throughout the game. Now it's real!

45:10

45:38

► Now you're in the main control room itself. Look familiar? As Donkey Kong, pull the lever you find. It'll make some stars appear above the control console.

► Find the Tag Barrel in here. Then, as Diddy, Jet Barrel through all the stars before the time runs out to open the doors. Using **B** to hover will help.

45:24

► The doors you come across still have grates in front that are impossible to get through. As Chunky, Primate Punch 'em and they'll open. One has a Bongos Pad in front of it.

20:20

► Play these bongos to get through glass. Into metal barrels inside for two challenges. Triangle Pad appears when you win them. Grab the Banana Medals.

32:30

► Now turn into Chunky and play triangle on the pad to open glass and get through. Complete two excellent challenges for Medal and to release Tiny Sax Pad.

19

► As Tiny, play Saxophone. Slam on Music Pad to get thru glass barrier. Win two challenges for Medal and to release Lanky Music Pad.

31:47

► As Lanky, play Trombone Tremor on Music Pad and go in. Win two challenges for Medal and to release Diddy Pad.

► You'll need to Jet Barrel up to Diddy's Music Pad. Play Guitar Gazump and enter. Carry out challenges to open King K. Rool door.

Blocked doors

You're near the end of Hideout Helm. There's a big surprise coming.

But, two of the doors you find here require the Nintendo and Rareware Coins and four Battle Crowns. Here's how to get em...

► Use Jet Barrel to get to the King K. Rool door and onto the next room. Keep going to find a door that needs four Battle Crowns and in.

► There's a door with a picture of two coins on it. This is the last door of Hideout Helm. You'll need the Nintendo and Rareware Coins to enter.

► Get Rareware Coin by scoring 5,000 points on Jetpac and the Nintendo Coin by getting through first four levels of original DK arcade game twice.

Secret Golden Banana!

There are more than 200 Golden 'Nanas!

There's a secret one given to Tiny by the Queen Banana Fairy.

► You should have these coins by now, so go into door. Take pictures of what should be the last Fairies and grab the final key to K. Lumsy's Cage. Well done!

► If you have taken photos of all the Banana Fairies you'll be asked to go back and see the Queen Banana Fairy. She'll give you 201st Golden Banana. Cool, or what?

► Now for the last thing you have to do before facing the battle of yer life! Visit K. Lumsy and put the last key in his cage. Sit back and enjoy the cut scene.

The final battle

This is the moment you've worked so hard for

This is it! You've very nearly completed this massive game.

Make sure you have all 201 Golden Bananas. Otherwise you won't get the excellent ending when you beat K. Rool. And you wouldn't want to miss that!

Donkey Kong

DK must jump out of his Blast Barrel and pop Rool on the chin.

But the leader of the clan's timing must be perfect to succeed.

▲ Into the spaceship opposite waterfall and Bananaport Pad 3 on DK Island.

▲ You'll be in a boxing ring and it's Donkey Kong's turn first. Ding! Ding! Round one. Avoid the shockwaves by climbing onto the turnbuckles.

▲ After three shockwaves, four Blast Barrels will appear on the edge of the ring. Jump into one of them.

▲ Press ⌂ when King K. Rool is taunting you with his hands in the air. Do this four times to win round one.

Diddy Kong

This is Diddy's hardest Jet Barrel challenge yet.

Avoid K. Rool's boxing gloves and shoot targets.

► Now it's Diddy's turn. First avoid King K. Rool until a Diddy Barrel appears. Jump into it and jet up to the lighting system above.

▲ K. Rool throws his boxing glove at you and you're bound to take a few hits. So quickly shoot targets on lamps so that they land on his head.

▼ It's important to use ⌂ to hover. Shoot one target then fly to other side of the light. Press ⌂ and turn around so Diddy is facing the target.

ROUND 1

01:53:55

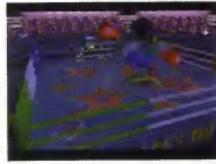

Lanky Kong

Lanky's scuffle with K. Rool is the hardest fight of all the Kongs.

Fool him into slipping on a banana skin, which isn't as easy as it sounds! ▲

▲ Go for it, Lanky! Hit one of the switches on the side of the ring. Grab the Barrel that appears. Throw it so that a slippery banana skin lands somewhere in the ring.

▲ Stand on a Music Pad. When King K. Rool is in line with you and the banana skin, play your trombone to make him charge you and slip on the skin. Hopefully.

Tiny Kong

Head to head, Tiny hasn't got a chance against the formidable weight of this king sized croc. She's only ickle!

So she'll use her size to get under his feet and tickle his toes!

▲ When it's Tiny's turn in the ring, avoid King K. Rool's shockwaves! If a Mini Monkey Barrel appears, jump in it. Run to hole in King K. Rool's shoe.

▲ You'll end up inside this croc's boot. Dodge his toes and when one turns up, hit it with the Feather Bow by pressing ⌂.

Chunky Kong

You're in a boxing ring, so now it's time for some proper fighting!

Problem is, half the time K. Rool is invisible! It's well difficult.

► First, you've gotta Simian Slam the switch in the middle of the ring.

▲ By using this move, you'll make Monkeygone Pads appear in each of the four corners of the ring. Press ⌂ on one of them to make yourself invisible.

▲ Jump into the Hunky Chunky Barrel. You'll appear in the corner of the ring. It just right and hit King K. Rool with a Primate Punch when he's close to you.

It's a secret

Now for the real reward, a game ending to remember. But we're not going to show it to you! That would be spoiling it! Check out next month's guide for loooso monkey multiplayer tactics.

WE SAID "Quite simply in a league of its own. A must have for fans of scary games."

Get to the Police Station

A zombie's crashed into your car with a lorry.

Without transport, you'll have to find the safety of the Police Station on foot. This is your first task.

► After the cut scene, you're in Raccoon city. Run straight on 'til you get to the gun shop. Enter. Handgun bullets and Robert's note are on counter.

► After he dies, search shop owner for weapons. If you're Claire, look for the Bow Gun. Through back door to alley, follow path.

► On to the back of a van. Search inside for bullets then turn around quickly. There'll be some zombies who are after your blood.

► Take 'em out, enter the courtyard and into next door. Up stairs, walk along for a while, then go down the stairs at the other end.

► Stand next to the dustbin and press □ to stand on it. Knife zombies for a bit of fun if you want, they can't touch you.

► Run left and enter the bus. Exit through other door. Continue on the path and you'll come to the Police Station door. Go in.

Find Station Map

Luckily, you'll discover the Police Station Map quite soon after entering. You may be scared, but at least you're not lost.

Now you can see the size of the building that you've got to explore. It's big, but don't let that worry you.

► In the Hall. From here, enter room that's on the very top left of the map. Watch cut scene where the cop meets a sticky end. Receive Blue Card Key.

► Use computer in the Hall. You'll also find a Typewriter and Ink Ribbon to save games. Enter the door on first right as you enter hall.

► Walk down the light blue corridor containing six vicious zombies. Take the second door you come across, and not the blue double doors.

► Narrow corridor area. Open third door you find (second is locked). Take Small Key, Journo's Note and leave again. There's nothing in here for Claire.

► Open the first set of double blue doors you saw after leaving hall. Search in here for a safe. When you find it, it'll open with the combination 4542. Inside, you'll find the Map. Take it out, it's yours to keep. ► Go back to Hall and go through double doors. They're the first ones on your left as you came in through main entrance.

Kill your first Licker

At this point in the game, you'll meet the ferocious, dribbling Licker for the first time. Don't say we didn't warn you, Nintendoids!

But even though you know a nasty surprise is coming, you'll still get a fright!

▲ There's a chest in here. Use it to swap the items you're carrying. Always leave two spaces free for new stuff. Into next door.

▲ Walk along until you have to battle Licker. Press □ to aim downwards while the vicious beast is on the ground.

Red gems

Grab these lil' beauties 'cos they'll come in very handy.

Later in the game you'll be able to exchange the gems for a prize.

► Thru door at end of corridor and into the first double doors on the right. You'll find yourself in a Meeting Room.

▲ To climb up at back, use your lighter on fireplace to make painting burn. Take red jewel. If playing as Claire, you won't be able to do this yet.

▲ Exit room, turn right and into next door. Bear left and you'll see a door on the right. It's the Dark Room. Go in. Search the lockers in here for extras.

Statue puzzle

This mystery'll have you pulling your hair out unless you pay close attention to the clues.

Luckily, we're here to help you out.

► Exit, go upstairs. Follow the path until you see three statues. Read the inscription on the middle one for what to do next.

▲ The clue is telling you to push the two statues on either side on to the brown tiles at the wall edges, until they're facing the middle statue. Easy when you know how, isn't it?

▲ If you get it wrong, backtrack to previous room and re-enter. Statues will be back in original position. When you've finished, you'll be able to grab red gem.

▲ Through next door, turn left and into first door on left. The S.T.A.R.S. office.

▲ Take Diary belonging to Chris and a Unicorn Medal. Look inside locker for Shotgun or, if Claire, the awesome Grenade Launcher which can do maximum damage.

▲ If you're playing as Leon, Claire will now enter. Go back downstairs to main hall. Use the Unicorn Medal you picked up on a large white statue at back of area.

▲ Take Spade Key. Go back to Licker corridor and into first room on right that needs the Spade Key to open it. Push steps and get Crank from high shelf.

▲ Go back to the second floor, pass the S.T.A.R.S. office on yer left and go into the next door. There's a dead end on your left. Go forward until you reach another door.

Moving bookcases

All the best haunted houses have a moving bookcase. The creepy Police Station in Resident Evil 2 is no different!

Solve the bookcase puzzle and each character'll get a different reward.

▲ Ignore moving bookcases for now. Go up the stairs and follow path until you fall down into a sectioned off area.

▲ Read inscription and see diagram under painting. Push red switch near bronze plate. Back to bookcases.

▲ Power is now on. Push the two bookcases on left one space to the right.

▲ Go back to room you fell into. Take Bishop Plug. Claire gets Red Tablet. If you're playing as Leon, skip the Claire box on next page.

Leon or Claire?

In some parts of the game, Leon and Claire get to do their own thing.

To make things easier, whenever you see a red box, that's just for Nintendoids playing as Leon. Yellow boxes, like the one below, are just for Claire. Got it?

**Claire's second red gem**

Unlike Leon, Claire doesn't carry a lighter. She has to find one! When you get it, go back to the Meeting Room to burn the painting.

▲ Go to the room opposite the library, across walkway. You're now in the Waiting Room. Pick up lighter and read the files.

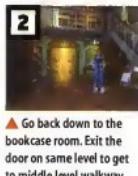

▲ With lighter, go back to the Meeting Room and light up the fireplace. Get second red gem. You can continue with Leon guide from here.

Put out fire

Leon and Claire have to get past a burning helicopter, blockin' their way.

► Back to highest walkway via door at the top of the stairs. Go into door on your right. Use Crank on hole to extend staircase.

▲ Go back down to the bookcase room. Exit the door on same level to get to middle level walkway.

▲ Release the ladder you find on this path. With it, you'll be able to get back from the ground floor.

▲ Back to the bookcase room, up stairs to door. Make your way through to the highest walkway.

▲ To door on to the other end of the walkway and in. Take the Small Key. Go to the next room, with fire on your left. Through door in front to the right.

▲ Unlock door in front. Then run past the crowds to the other end and open the door.

▲ Outside, go down the stairs and make yer way to door. Now enter the building you find at other end. Take Valve Handle.

▲ Go back to stairs. Near the door, you should see a passageway. Go there and use Valve Handle. That should put out the fire.

Cop killer!

In this part of the game you have to turn criminal and kill one of your fellow officers. But don't feel guilty, 'cos it's a mercy killing!

To get the next Key, you'll have to put a zombie cop out of his misery.

▲ Go back to the corridor that had the fire and let yourself into the door you couldn't go into before. Now you'll be able to use your red jewels on statues.

▲ The statue's chest will open. Take the King Plug. If you're playing as Claire, she'll get the first half of Blue Tablet.

▲ Then take the Diamond Key on your left. Run down Emergency Staircase to the main hall on the ground floor.

▲ Find door on the right of where you got the Small Key earlier. Take Cord and Rock Plug. Claire gets Eagle Stone. Watch out for the Licker that appears.

▲ To corridor where you met the first Licker. Use the cord on the circuit box near corpse. Then enter the corridor that'll lead you to the Dark Room.

► Instead of going left to the stairs and Dark Room, go right to a new door and in. Through other door in room. ▼ You'll see the cop that you got the Blue Key from. Kill him cos he's a zombie. Then, if you're Leon, you'll get the Heart Key. If you're playing as Claire, you'll be given the Detonator.

Claire makes a Bomb

Here's a cool extra bit that's just for those playing as Claire. She's got to make a bomb and blow open the Police Chief's office.

▲ Find the light blue door just before the staircase that leads to the Sun and Moon Statues. Get the plastic Explosive from the cabinets next to the door.

▲ Combine Explosive and Detonator. Now go back to the crashed helicopter and use your bomb. A new passage will open that leads to Chief's office.

▲ Go into office, watch cut scene, through door at other end to glass case room. Meet Sherry, head back to office.

▲ Pick up Heart Key on desk, and Ada's diary. Picture behind desk can be moved to find space to put Tablets.

Leon meets giant spiders

Leon has to drop into murky sewers and meet poisonous spiders that're a bit bigger than those you find in the bath, believe us!

▲ Exit this room. Take the second door on your right. Enter the car park. Watch the cut scene, and meet Ada. Push truck into first door on left.

▲ See cut scene, through corridor and into first door on the left. Cells area. Get Manhole Opener. Backtrack, into first door on left.

▲ Use the manhole opener on the lid. Descend the ladder. You're in the Sewage Disposal room. There are two spiders in here.

▲ Go to the other end. Walk up the stairs. Into room that's above you on the map. Cross the bridge. You'll see a door and a panel on its right side.

▲ Use the King Plug on the panel. Then use the Rook Plug and the Bishop Plug. Exit from this room the way you came in. Watch another ace cut scene.

Activate circuit

Leon and Claire need to open doors powered by an electric lock.

► To Ground Floor lobby. Enter door on right. Into office with safe and through door at other end of room. Turn left, through door and down the stairs at end.

▲ Now go through a set of double doors. Activate circuit box by using Up, Down, Up, Up, Down combination. If you're Claire, you'll now need to read the box below.

Going down!

Claire has to go down a manhole so she can solve the G-Virus mystery.

► Turn right and through two double doors. Bin area. Down manhole at end. Find Stonercon on left, in and out again. Meet Sherry. Skip next bit, 'cos it's just for Leon.

Sherry and Ada

In this part of the game, Leon and Claire will take a back seat. You'll have to control Ada or Sherry and get the Club Precinct Key.

▲ Now, you'll be playing as either Ada or Sherry. Sherry should go down the lift, whilst Ada must head for the area which has dogs in it. Both go into door at other end.

▲ Take the Sewage Disposal map. Go down. Move the crates you'll find here, so you can cross to the other side.

▲ Here's the order in which you'll move the crates. Push top and middle crate down, and bottom crate to the left.

▲ Go back to where you came from and activate the panel. Walk across the crates and grab hold of the Club Key.

▲ Go back up again. Watch a cut scene showing Ada/Sherry throwing key through hole to Leon/Claire.

Next month

In next month's issue we'll solve all the game's puzzles and take you to the very end, where you'll battle the pant filling final boss. Tune in again... if you dare!

THE GAME BOY COLOR GUIDE TO

Seaside

Fig 1. Quicksand can be identified by warnings and other telltale signs (protruding heads/hands/feet). Obey them. Or play like it's your last game ever. Because it will be your last game ever.

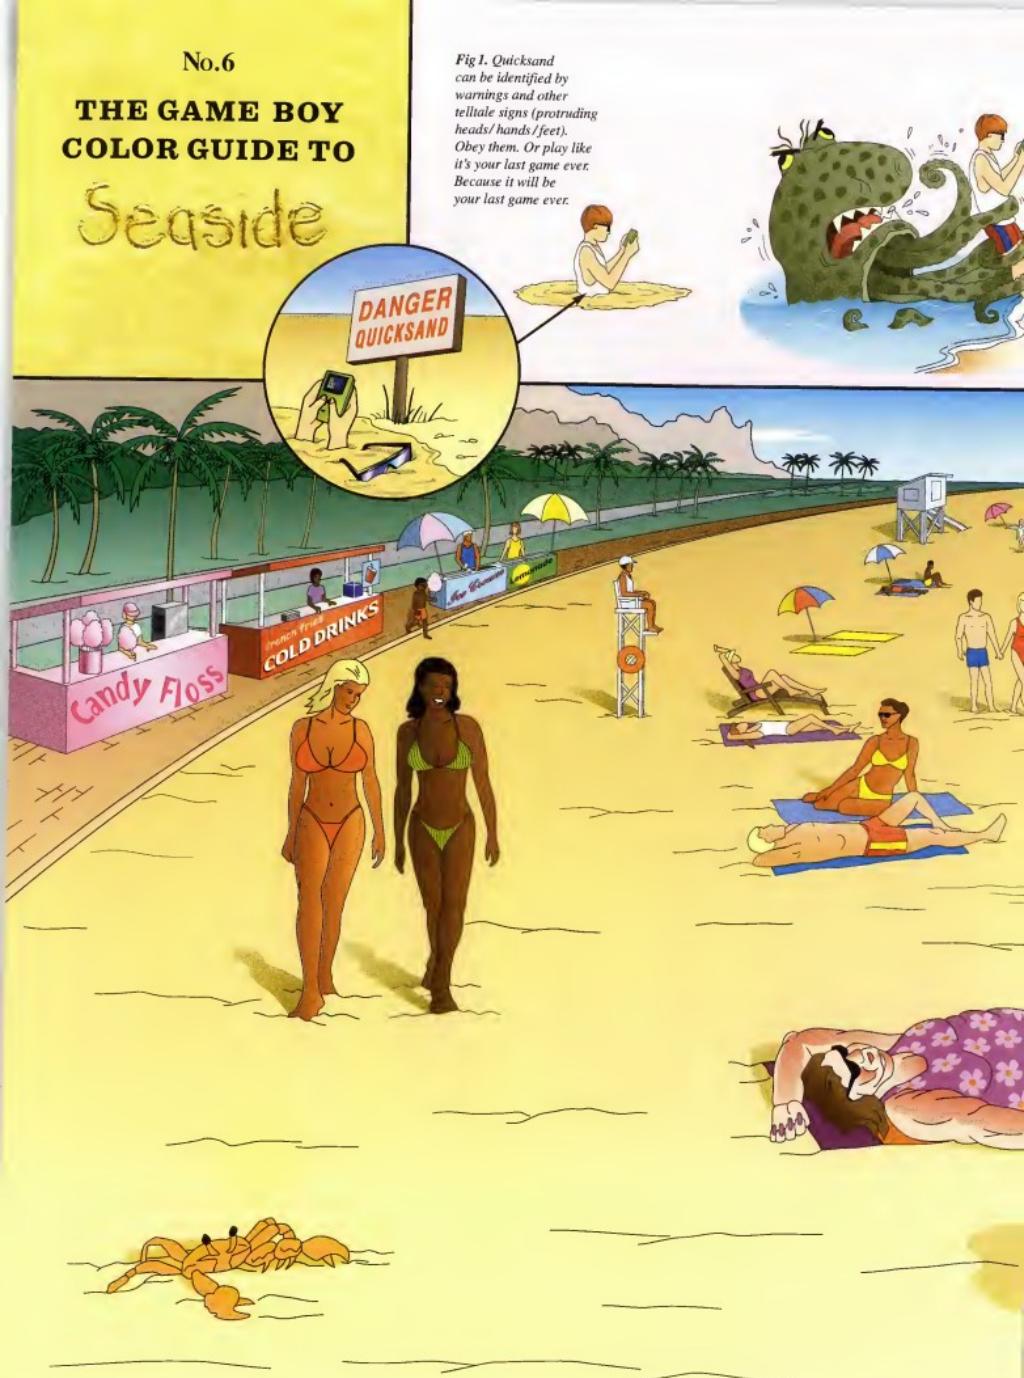

Fig 2. If this fella takes a fancy to you, there ain't a goddamn thing you or David Hasselhoff can do. Tip: when engrossed in Game Boy try not to resemble a McHuman™

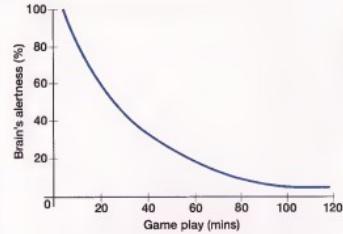

Fig 3. Avoid anything green and bubbling. No amount offlare-wearing, pot-smoking, guitar-playing Friends of the Planet can stop Plutochloronitrate eating through flesh. Man.

Nintendo accept no responsibility for any accident(s) caused whilst playing. Actually, we couldn't give a monkey's but we have to say it for legal reasons.

FOR SAFETY'S SAKE, SPEND A FEW MINUTES FAMILIARISING YOURSELF WITH THE TIPS IN THIS USEFUL GUIDE. THAT WAY YOU CAN ENJOY LITERALLY HUNDREDS OF GREAT GAMES AND SPARE YOUR MOTHER A VISIT FROM A POLICEMAN.

Graph A illustrates how, during continuous play, the brain's alertness level plummets drastically. In other words, you will temporarily be two turrets short of a sandcastle.

HERE'S THE BIT OF THE MAGAZINE THAT YOU WRITE...

- ✓ Letters ✓ Power Pack ✓ Ask Rare ✓ Name that Game ✓ Reader Chart

It's Club Mario time once again. Nintendos. That sort of the mug where you coll the shots, and fill our pages with your views, questions and excellent piccies. In the hot seat this month is Dove, our glorious leader and super writer, Tim. Let's see what's going on in the world of the Big N...

"Resident Evil 2 on the GreyStation is not as good as the N64 version.

You can move around a lot faster with the 3D Stick and you don't have to wait for it to load."

Kevin Parry, Wigan

"You're right there, young Kevin. You could grow old waiting for scenes to load in the GreyStation version! Dove

"Advice please! Do you think a Game Boy Booster would damage my N64, and is it worth getting one? It would save me about £30."

Matt Robson, London

"We've used GB Boosters and found them unreliable. Some games don't even work with 'em. Tim

"Although they won't harm yer N64, we're certainly not that impressed with 'em. Dove

"What's happened to The World is Not Enough? Is it being released on the N64 or Dolphin?"

Max Wellenham, Berkshire

"The word on the street is that the N64 game'll be out in September. However, nothing's been confirmed, so stay tuned for updates. Dove

"We're dying to see the game. We reckon it'll be one ace blaster. Tim

"I got WWF Wrestlemania 2000 for Christmas and it's the best wrestler ever. It looks so different to WWF Attitude that it's worth getting both."

Graham Elder, Ewell

"They're both class games! And if you're a big wrestling fan, then you should check out ECW Hardcore Revolution on p20. Dove

"Be warned, though. ECW's not one for the squeamish! Tim

"The first game I'd like to see on the Dolphin would be a sequel to Mario or Jet Force Gemini. But as long as there are some good launch titles, I wouldn't be bothered what came out first."

Christian Hann, Worcs

"These games would be ace launch titles, and we're sure that Nintendo are thinking about sequels to both. Tim

"We're just hoping for some original games that'll push the new console to the limit. Dove

"My favourite game of the year has gotta be PokéMan. It keeps me playing for ages trying to catch all 150. I just can't put it down."

Olivia Mark, Cheshire

"It's so addictive, you've just gotta keep playing it. People call it a craze, but we know that it's gonna be around for years to come. It's showing no sign of dying out. Dove.

"I didn't think PokéMan was going to be my cup of tea when it first came out. But I found that I couldn't stop playing it. If you own a Game Boy, you must get it. Tim

"Thanks for the free calendar that came with the January issue! It's taken pride of place on my wall. I can't wait for more free stuff."

Chris Byatt, Somerset

"We're pretty chuffed with it too. It's also on my bedroom wall. Tim

"We don't want to say too much, but watch this space for some massive giveaways in 2000. Dove

"I've heard that FIFA 2000 isn't coming out on the N64. Is this the end for FIFA games on the N64, or will there be a new one?"

Andrew Lee, Warrington

"Unfortunately, you've heard right. There aren't any plans to bring out another FIFA game for the N64. Tim

"If you love footie games then you should check out ISS Millennium. It's a blinding game. Dove

"Resident Evil 2 is really scary, but I think Shadow Man is a bit naff. It didn't frighten me at all."

Jack Varcoe, Hull

"Shadow Man's a bit naff? As if! All we can say is that you must have nerves of steel, Jack. Tim

Power Pack

Well done to Matthew Barlow for his Legend of Zelda design. If you want to show off your skills, then get scribbling. Send your entries to the usual Club Mario address. Good luck!

You Review

Do you know yer games? Fancy seeing yer name in print? Then why not send in a review for one of your favourite or worst games.

This month, it's Mark Cookney supplying the review. He revs up, hits the track, and dishes all the dirt on V-Rally.

READER'S NAME Mark Cookney

GAME NAME V-Rally

Best bit Skiddin' around awesome tracks in yer cool car and stuffin' yer mates in the multiplayer.

Worst bit The incredibly difficult control method. You feel like pulling out the game pak and stamping on it.

Graphics

The 2D spectators are poor. Like tramps in wet suits.

Overall If you like racing games, then you must get V-Rally. **87%**

"Could you tell Mr Miyamoto that Pikachu's goodbye song and Butterfree flying away in the recent Pokémon cartoon were horrible things to do. Both of them spoilt my Christmas."

Lewis Greenhow, Danderhall

■ Sorry to hear that, Lewis. Unfortunately, Mr Miyamoto isn't involved with the series at all! **Dave**

"Super Smash Bros. is the best game on the N64. My friend rented it and the multiplayer was wicked. But the score you gave it was far too low. We reckon it should have got at least 95%."

Michael Jameson, Surrey

■ It's a corker of a game, and the best beat 'em up we've ever seen on the N64. We gave it 90% so it still gets an Awesome award. **Tim**

■ We're always quite hard on games. So if we say it's worth buying, then you know it really is. **Dave**

"The first game I'd like to see on the Dolphin would be an original game, and not a sequel. Maybe a game based on Buffy, 'cos that would be well popular."

Daniel Gray, Worcs

■ We're all for originality here at NOM, like Pokémon. But let's not forget the Nintendo all stars, like Mario and Banjo. **Dave**

■ Buffy would certainly make an excellent character for a Dolphin game. We can just imagine the foxy chick hunting down vicious vampires. **Tim**

"By far the best racing game of 1999 was Star Wars Episode One Racer. It's got amazing speed, brilliant graphics and looks exactly like the film."

David Arden, Edinburgh

■ We reckon you could be right. It's an excellent game. **Tim**

■ Let's not forget Beetle Adventure Racing, Roadstars and V-Rally.

They're top notch racers, too. **Dave**

"I got Pokémon Red for my Game Boy this Christmas, and it's totally wicked. But what really made it great was your Pokémon Master Guide. It helped me understand the game, and now I'm great at it."

Ian Defoe, London

■ We're glad you like it. The guide's been really popular. We just want everyone else to enjoy Pokémon as much as we do. **Tim**

■ If you've been down the shops and found the guide has sold out, then hold tight! There's a new edition that's due to hit the newsagents in late March. **Dave**

Ask

Miyamoto!

Mr Miyamoto, the creator of Nintendo classics like Legend of Zelda and Donkey Kong, is in the NOM hot seat once again, answering more questions from you, the Nintendo nation.

If you've got anything you'd like to ask the great man, just send them to us at NOM. We'll forward the best ones to the genius himself!

Q How will Dolphin use the power of the Internet to its full advantage, and how do you think the Internet will improve the quality of Nintendo gaming?

Ben Shepherd, Bolton

A We're still trying to decide how Dolphin will use the Internet, but it's safe to say that by simply converting our existing games onto the Internet, we would not be making the best use of Dolphin's technology.

When Nintendo properly enters Internet related business, we will definitely want to provide our customers with new, attractive games on a regular basis. But, at this point in time, we're simply not in a position to reveal our Dolphin's net strategy.

However, from this April onwards, Nintendo will launch a new gaming environment by connecting the Game Boy Color to mobile phones in Japan. Although this idea isn't directly related to Dolphin, the new play environment will be a good example of how Nintendo will use the Internet for gameplay.

Q If you could get ANY Hollywood star to play Link from the Legend of Zelda games in a movie, who would you choose and why?

Jane Phillips, Northants

A I haven't really thought about this before! But when I met Jake Lloyd, who plays Anakin Skywalker in The Phantom Menace, at the E3 show last year, I thought he looked very much like my image of childhood Link.

Q Are there any Voice Recognition System games planned for Dolphin?

Michael Seaward, via e-mail

A We've been working on many new hardware tricks so Dolphin can handle new types of games. However, what Dolphin actually does will depend on the games themselves. If developers want to produce VRS games, we will develop VRS hardware. Personally, I think VRS will become an indispensable method of game control.

Q If you were on a desert island with only Nintendo games for company, which three would you have?

Mike Soutar, via e-mail

A I would probably bring my map development tool for Super Mario 64, and similar programmes for the Legend of Zelda and Mario Artist series, even though these titles are not available in the shops.

Q Do you take a Game Boy with you when you're travelling and if you do, which games do you like playing best of all?

James Geller, Leighton Buzzard

A I always make a point of taking a Game Boy with me wherever I go. Unfortunately, I only get to check new games in development most of the time. But when I do have the time, I love playing Pokémon. I also take Tetris with me whenever I'm on road.

Send your Miyamoto questions to the usual address.

Nintendo Official Pokémon Master

If you want more Poké fun, you're in the right place. Welcome to Poké Centre, home of the Official Poké League.

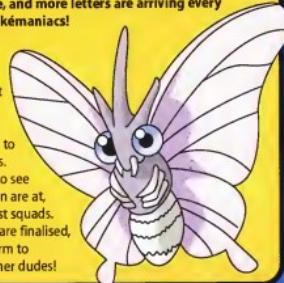

Send all your Poke stuff to...
Poké Centre,
Nintendo Official Magazine,

Official Poké League

We've had literally thousands of entries for the Official UK Poké League, and more letters are arriving every day. Keep 'em comin', Pokémaniacs!

Please note that the League rules and dates HAVEN'T been set yet. We're working hard to get this information for you, but please be patient. In the meantime, stay tuned to the mag for more updates.

For now, we just want to see what Levels your Pokémons are at, and rate some of your best squads. When the League details are finalised, we'll give you an entry form to complete. Good luck, Trainer dudes!

More Poké teams

The Poké squads you're sending us get better every month, so expect the League to be as 'ard as nails.

And remember, we can spot Poké cheaters a mile away! We've got a secret way to tell players who've cloned items to get Lv 100 Pokémons without the proper effort, and they'll be disqualified.

This DOESN'T mean that you can't use Lv 100 Pokémons. If you haven't cheated, you won't be disqualified... simple as that!

Jefferey Winch, Shropshire

Mewtwo	Level 73
Charizard	Level 72
Parasect	Level 64
Venusaur	Level 69
Moltres	Level 53
Arbok	Level 41

"It's good to see a Parasect making the grade, young Jefferey. But you'd better make sure that you beef up your Arbok, too. He's a little weak."

Claire Vincent, Tyne & Wear

Mewtwo	Level 70
Chanssey	Level 64
Charizard	Level 60
Zapdos	Level 41
Artikuno	Level 54
Golem	Level 43

"A good, strong squad. Mewtwo's always a top choice, isn't he, Claire? If you boost Golem's Level, you could well be onto a winner."

Challenge me!

When the Official Poké League hits the road later this year, you'll get the chance to challenge NOM editor, Dave.

Dave's been playing Pokémon longer than anyone else, and his Pokémon team is sure to beat ya, big time.

Don't bother trying to find out which Pokémon Dave will use 'cos his monster squad is a deadly secret known to no one.

Just remember, Dave knows every Poké trick in the book, so you'll need plenty of skill, not luck, if you're gonna take 'im down.

Get practising, Pokémaniacs. You've gotta lot of work to do...

The address for entries is...

"Your Ghosts will come in dead handy, Daniel. But you need to do some hard training work. Get 'em all over Level 60, and you'll be in with a chance."

Daniel Chu, Stockport

Mewtwo	Level 95
Raichu	Level 93
Blastoise	Level 85
Articuno	Level 80
Venusaur	Level 80
Charizard	Level 80

"Wow, Daniel! That's a team and a half! You could even give the expert, Dave, a run for his money with a squad like that."

Poké Art

Gastly's haunting Pokémon Centre this month, proving that NOM readers are the best artists around.

Keep sending us your drawings and you might see 'em printed in the mag!

▲ This is what horrible Gastly should look like. Let's have a look at the sketches sent in by Pokémaniacs this month...

▲ Eleven year old Jason Wood from Grimsby has drawn all three Gastly evolutions. Looks like they're outside Pokémon Tower!

▲ Billy Cheetham from Herts may only be 12, but he's an ace Poké artist. Check out Gastly's evil grin.

▲ From Joe 'The Pokémaniac' Whitfield, from Cheshire:

▼ Eight year old Sam Shaw from Kent thinks Gastly will knockout Weedle without any problems.

▲ Lazy old Snorlax has fainted in this brill picture by Selina Kanji, aged 13. She's from Hertfordshire.

► Ten year old James Hall from Romsey reckons that Fony's GreyStation tastes just fine. Well, that's one good use for it!

How to draw Butterfree

Time to draw another Poké fave. Try your hand at Butterfree!

Pokémaniac of the month

Another Ghost Pokémon is speaking NOM readers this month. This time, it's Gengar! Five year old Conor Hendricks from Wiltshire is Poké mad, and decided to go trick or treating as his fave creature.

We had to use the Silph Scope to develop this picture, but it was well worth it. If you're Pokémaniac crazy like Conor, send us a photo and you might appear in Pokémon Centre.

Official Pokémon Sticker Collection

The Official Pokémon Stickers from Merlin Collections are out now, and they're dead cool. There are a massive 276 Poké stickers to collect, including 25 shiny silver ones featuring your fave beasts. The sticker album - which costs £1.49 - has space for all the stickers, and it's got a free poster wallchart in the centre. Wicked, or what?

Your Poké Tips

If you've found any cool stuff when playing Pokémon, make sure to send your hints and tips to Professor Oak. He'll let you know if he thinks they're any good or not...

■ "If you're looking for more Rare Candy, visit the guy who talks about Pokémon badges in Cerulean City. Just stand in the middle of his backyard, and then press A for a reward of hidden Candy!" Michael Burkhill, Nottingham

"That's right! Remember to search in odd places like this with the Itemfinder for more hidden secrets."

■ "The boxes on Bill's PC can only hold a limited number of Pokémons. If you're going on a serious Poké hunt, open a new box or you may not have the room to store them, wasting time and Poké Balls."

Mork Bailey, Sutton

"You're not wrong there, young Mark. If you catch a Pokémon but there's no storage room left on the PC, you'll find you have to set it free. Nightmare!"

■ "Although you meet Abra early in the game, he's hard to catch 'cos he always teleports to safety. Forget about him 'til you have Ultra Balls, which make him easier to nab."

Tim Newson, Brockley

"Yes, Tim. It's best to leave Abra 'till later on in the game. A good sleep attack will also help you to catch this ill' Psychic critter."

■ "Growlithe can be hard to catch 'cos he uses Roar to send your Pokémons running. Make sure you put him to sleep and then he won't be able to unleash this attack."

Barry Linton, Aberdeen

"Growlithe can only be caught in Pokémon Red, so this is a great tip for people who own this version."

■ "When you're on the roof of the Celadon Department Store, buy some drinks for the girl standing there. If you do, she'll give some free TMs!" Dove Williams, Berks

"You're not wrong there, Dave! That's a cheap and easy way to get Ice Beam, Rock Slide and Tri Attack."

Want to get all 150 monsters? Wanna find out everything there is to know about Pokémons? Look no further!

Nintendo Official Magazine has brought out a guide that tells you everything you need to know. Bash every boss, beat the game and catch 'em all with the best guide around. Can't find it? Don't worry, there'll be a new one out soon.

Castlevania 2

- Dracula returns
- Improved targeting
- Even bigger baddies

Game Info

By: Konami

Type: 3D Action adventure

Release: April

Bigger, badder, better and back in time. Castlevania, Legacy of Darkness takes place eight years before the original N64 adventure, but thankfully the gameplay has taken a huge step forward.

This time around, there are four playable characters, although you won't be able to get your mitts on all of them right at the start.

But you will get to visit loads new locations, as well as quite few familiar ones, as you track down and try to kill the evil Dracula. Let's take a look...

Action view

▲ Cornell fears neither man nor beast. Check out the cool effect when his weapon strikes its prey. Wicked, or what?

► The standard weapon doesn't dish out that much punishment. Opt for something a lot more powerful.

▲ You can now keep your distance and wipe out enemies from afar. It's a lot less dangerous that way, believe us!

New warriors

The story centres on a bizarre character called Cornell. This half man, half beast returns home to find his village burned to the ground and his sister kidnapped.

His only hope is to set off on a journey to save her, and it's on his travels that he meets Schneider, Carrie and another new character called Henry. Once you meet these new friends, you'll be able to take control of them and use their unique abilities to the full.

► The gameplay's so much better, you'll be howling at the moon with joy. Just like our hero, Cornell, is doing here.

▲ He may look small, but Cornell sure can kick some butt. This poor soul didn't even stand a chance.

▲ There are four characters to control, but you can only play as Cornell at the start. He's a strange fella.

► Don't stray too near to this evil monster. He'll pounce if you're too close.
► The giant skeleton's in trouble. A few more hits should send 'im packing.

▲ Don't forget to use the items you've collected. The Roast Beef'll boost your health.

▲ Unfortunately, there are still lots of annoying climbing sections in Castlevania 2. One wrong move and you're back to square one.

► The sign on the post might contain a much needed clue.

Why not take a break from the action and read what it says? It'll probably tell you what you need to do next.

Action view

Sharper shooting

In the original, it was difficult to locate an enemy before they struck. Now the computer locks onto an enemy and won't stray 'til you've killed it stone dead.

However, the computer can also target you, so keep on your toes and be ready to strike.

▲ In Castlevania 2 you're able to lock onto an enemy the moment it pops its head outta the ground.

▲ Cornell lets rip with his trusty weapon. And you just know he ain't gonna miss with it. Take that!

▲ Got 'im. The creepy skeleton's been reduced to a mere bag of bones. Right, who wants some more?

The bigger they are...

Castlevania was crammed with evil nasties, all hell bent on taking you down.

In Castlevania 2 there are even more problems for our heroes. Unfortunately the enemies have increased both in size and intelligence. Take a look at these three bad boys...

Skeleton

He's back, and badder than ever. It takes even more shots to kill 'im. Look for his minions who drop in to help him out.

Weretiger

Another fave returns and he's just waiting to rip ya to pieces. A few well aimed strikes should turn him into a fireball.

Sea Dragon

This scary beast'll see you off in a flash if you don't keep on the move. Better launch your secondary weapon.

We think...

Castlevania was good, but didn't live up to expectations. This is looking much better and the targeting system makes it more playable. Full review next ish.

Turok 3

Shadow of Oblivion

Game Info

By: Acclaim

Type: 3D Stealth shooter

Release: September

Load 'em up, Nintendoids! Turok 3's coming your way and it's looking amazing.

Okay, so it's a good few months away, but it looks like it's gonna kick ass when it hits the UK.

With over 20 action packed levels, 24 incredible weapons and even more ferocious monsters, this'll keep you on the edge of your seat, all the way to your final battle. The biggest improvement is the inclusion of a save anywhere facility, which'll come as a huge relief to anyone who played Turok 2.

The game also boasts an amazing 48 multiplayer arenas, and we're hoping they'll be as playable as the ones in Turok Rage Wars.

▲ The enemies are both futuristic and prehistoric. Don't stand still or it'll lock onto you and start firing.

▲ You're armed and ready for action. Keep your finger on the trigger, 'cos you never know when they'll strike.

- First ever shots
- New heroes
- Massive multiplayer

► Check out this bad boy! He's got no head, but he just keeps on comin'.

▼ Some of the old weapons, like the deadly Tek Bow, have been updated.

▲ The graphics are as sharp as ever, and the gameplay's been vastly improved.

► What a crackin' shot! Give 'im another blast and he'll be as good as dead.

► You've found yourself back in the heart of the forest. What are the odds on that river being poisonous?

▼ There are loadsa new enemies, desperately trying to rip you to shreds. Hit 'em before they get too near.

► The SWAT team leads the way. Keep close by and they'll help when the going gets tough.

New heroes

Two new heroes have entered the fray and they're packed with enough fire power to keep all you sharp shooters happy.

The new players who are descendants of Joshua Fireseed, are Joseph (the original Turok) and his sister, Danielle. Each character has a particular skill so the game will play slightly differently depending on your choice.

► The SWAT team arrives after back up. Will you be able to ride in their futuristic space chariot?

We think...

If it has the playability of the first episode, and improves on the sequel's multiplayer, this'll be the best Turok game ever. We'll have more news, real soon...

▲ The game begins on a moving train where zombies are already after your blood.

Resident Evil Zero

● Ace new heroes

● Awesome gameplay

Feel the fear once more as Resident Evil Zero arrives to haunt you and your N64.

Very little is known about this exclusive N64 killer title, which is set in a time before Resident Evil 2.

You take control of Rebecca

Chambers, who must try to uncover some of the unanswered mysteries in previous Resident Evil games.

We'll have more soon, but take a look at the first screenshots. Just keep the lights on when you take a peek...

► Look at the disgusting blood stain covering the wall. A zombie must have taken a bullet to the head. Ouch!

▲ Rebecca's held at gunpoint, but who is this tattooed mystery man?

▲ The zombie killing action is nerve racking as ever.

We think...

Resident Evil Zero promises to be a treat. It already looks the business and the improvements can only make it better. Watch out for this, it's gonna be huge.

▲ Rebecca follows the man. Could he be a goodie after all? Don't bet on it!

Jeremy McGrath's Supercross 2000

- Ultra fast arcade action
- Extreme tracks
- Totally awesome stunts

Game Info

By: Acclaim
Type: 3D Racer
Release: 7 April

Prepare yourself for more motorbike mayhem as Jeremy McGrath's Supercross 2000 races to the N64. It's extreme, dudes!

Take on seven rival motor maniacs on revved up mean machines, around a series of mud tracks. This won't be as easy as it sounds, 'cos every course is packed with high jumps, steep turns and super fast straights. It's designed to test you to the max.

The game also promises to deliver some ultra realistic handling, so you'll need to use skill and caution if you're to take the chequered flag. Hit the bends at full speed and you'll struggle to retain the racing line and stay on yer seat.

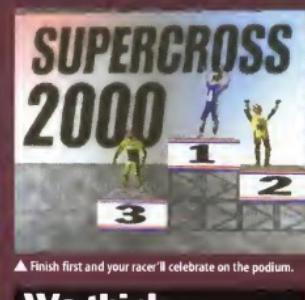

There are a selection of freestyle arenas, where you can pull off dangerous tricks for loads points. Hold the **B** button and move the 3D Stick to perform a crazy stunt. Get the highest score within a time limit and prove you're king of the course.

▲ Rough terrain slows down yer bike, so you'll need to accelerate outta the corners to keep up with the rest of the pack.
► There are loads outdoor tracks which seem to go on for miles.

◀ Slam on the brakes as soon as you hit the floor to slow down for that ultra steep bend.

▲ Finish first and your racer'll celebrate on the podium.

We think...

Supercross 2000 has potential. The gameplay needs improving, but the speed's ace and the Track Editor's a cool extra. We'll wait and see if it has what it takes.

Driver

Car chasing carnage is on its way for your portable pal, as Driver hits full throttle.

Take control of Tanner, an undercover cop who poses as a getaway driver for The Mob. Your mission is to run errands through the streets of Miami, San Francisco and Los Angeles, as you bust the major ringleaders before your cover's blown.

Smack into oncoming traffic, trash cans and pedestrians, and use every trick in the book to stay one step ahead of the authorities.

There are also several driving challenges including Getaway, Pursuit and Survival which should keep all motor maniacs happy.

▲ Finish your mission before time runs out. The arrow will guide you to your location.

▲ Clock up the fastest time and then try to beat it.

Fast News

- Conker's back, but not as we knew him.

Rare has confirmed that Conker is still coming to the N64, but Twelve Tails has been radically changed and has even got a new name.

Our squirrel friend's set to stun Nintendos when Conker 64, A Bad Fur Day is released this autumn. First screenshots coming soon.

- Trade Poké powers via your mobile phone.

The new Game Boy Communication Adaptor will be released in Japan this April and it'll allow you to link up to mobile phones and trade game information.

Even better, a brand new PokéMan game is being developed and it should be the launch title for this brilliant new piece of hardware.

- Games galore as THQ announces new titles for 2000.

Good news for role play fans! THQ's biggest game of 2000 could well be Aidyn Chronicles, The First Mage, which is a brand new RPG from the makers of Holy Magic Century.

We'll also see the first N64 Power Rangers game - Lightspeed Rescue - while Scooby Doo and those lovable rogues, The Rugrats, will return in new games which'll hopefully be as good as their Hollywood movies.

We think...

We've been waiting ages for a game like this. Track and Field looks superb! Expect lots of mega competitive play, a few tantrums and hours of brill gameplay.

- Olympic events
- Awesome gameplay
- Win medals

Game Info

By: Konami
Type: 3D Sportster
Release: May

Get ready for some severe button bashing and broken 3D Sticks, Nintendoids! Track and Field 2000 is set to give sports fans the ultimate gaming experience.

Players will get to choose their athlete from up to 12 countries, and compete in all the major Olympic events, including 100 metres, high jump, long jump, shot putt and swimming.

To succeed, you'll need much more than quick fingers. In fact, timing is equally important in the majority of events. You must remember to breathe when in the pool, release the hammer at the correct moment and get the perfect angle when jumping. Get these vital skills wrong and it won't matter how fast you're travelling.

No doubt, the highlight of the game'll be the four player mode, which'll allow you and your mates to battle it out for a place on the podium.

- ▲ Enjoy the action as the computer replays the race.
- Looks like the Brit won't get a medal.

Battle Zone Rise of the Black Dogs

Another arcade fave has been revamped and given the N64 treatment. This time, it's Battle Zone.

The game is set on the moon, where the Yanks and Ruskies are on the hunt for a precious alien metal which holds the key to powerful new weapons.

Playing like a first person shooter, gamers get to control massive robots, armed to the teeth with awesome weapons. Or if you prefer, you can leave your robot and battle it out on foot.

- Some of the tanks can really motor on through the battle arenas.
- If you're heading out on foot, make sure you know how to use yer sniper rifle.

- The little green men are back for more plastic punishment.

Sarge returns to give the orders as Army Men Air Combat marches onto the N64.

Once again, the Nintendo 64 edition is far superior to the GreyStation's, with two extra missions and a four player deathmatch mode.

This time there'll be plenty of air battles, so expect to hit the skies in loadsa cool machines.

- Top footy action for your GBC.

David O'Leary's Total Soccer 2000 is out this month and it may look familiar to older gamers.

This is essentially Sensible Soccer on Game Boy Color. It may not look too hot, but the gameplay can't be beaten!
